SUPPLEMENTARY INFORMATION:

Title: FAS/Cooperator Market Development Program.

OMB Number: 0551-0026.

Expiration Date of Approval: December 31, 1998.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The primary objective of the Foreign Market Development Program is to develop, maintain and expand long-term export markets for U.S. agricultural products. Created over 40 years ago, the program is a cooperative effort between FAS and non-profit agricultural trade organizations (called "Cooperators"). The FAS currently provides cost share assistance for market development to approximately 30 Cooperators working in more than 100 countries.

Prior to initiating program activities, each Cooperator must submit a detailed application to FAS which includes an assessment of overseas market potential; marketing strategy, goals and market development activities; estimated budgets; and performance measurements. Prior years' plans often dictate the content of current year plans because many activities are continuations of previous activities. Each Cooperator is also responsible for submitting: (1) reimbursement claims for eligible costs incurred, (2) an end-of-year contribution report, (3) travel reports, and (4) progress reports/evaluation studies. Cooperators must maintain records on all information submitted to FAS. The information collection is used by FAS to manage, plan, evaluate and account for Government resources. The reports and records are required to ensure the proper and judicious use of public funds.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 20 hours per response.

Respondents: Non-profit trade organizations.

Estimated Number of Respondents: 30.

Estimated Number of Responses per Respondent: 73.

Estimated Total Annual Burden on Respondents: 43,800 hours.
