**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice 98-095]

**Notice of Prospective Patent License**

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Prospective Patent License.

SUMMARY: NASA hereby gives notice that Lantis Laser, Inc., has applied for a partially exclusive license to practice the invention disclosed in NASA Case No. LAR-15564-1-SB, entitled, "Method of Controlling Laser Wavelength(s)," for which a U.S. Patent Application was filed and assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to NASA Langley Research Center.

DATES: Responses to this notice must be received by September 15, 1998.

FOR FURTHER INFORMATION CONTACT: Ms. Robin W. Edwards, Patent Attorney, NASA Langley Research Center, Mail Stop 212, Hampton, VA 23681-0001. Telephone (757) 864-3230; fax (757) 864-9190.

Dated: July 13, 1998.

**Edward A. Frankle,**

General Counsel.

**NATIONAL SCIENCE FOUNDATION**

**National Science Foundation Proposal/Award Information—Grant Proposal Guide; Submission for OMB Review: Comment Request**

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Science Foundation (NSF) will publish periodic summaries of proposed projects. Such a notice was published at **Federal Register**, 6393, dated May 14, 1998. No comments were received. This material is being submitted for OMB review. Send any written comments to Desk Officer, OMB, 3145-0058, OIRA, Office of Management and Budget, Washington, DC 20503. Written comments should be received by August 14, 1998.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed project. "National Science Foundation Proposal/Award Information—Grant Proposal Guide." The mission of the NSF are to: strengthen its ability to support research in all areas of science and engineering; and promote innovative science and engineering education programs that can better prepare the Nation to meet the challenges of the future. The foundation is also committed to ensuring the Nation's supply of scientists, engineers, and science educators. In its role as leading Federal

supporter of science and engineering, NSF also has an important role in national science policy planning.

The information collected is used to help the Foundation fulfill this responsibility by initiating and supporting merit-selected research and education projects in all the scientific an engineering disciplines. NSF receives more than 30,000 proposals annually for new or renewal support for research, and math/science/engineering education projects, and makes approximately 10,000 new awards. This support is made primarily through grants contracts, and other agreements awarded to approximately 2,800 colleges, universities, academic consortia, nonprofit institutions, and small businesses. The awards are based mainly on evaluations of proposal merit submitted to the Foundation (see OMB Clearance No. 3145-0060).

The Foundation has a continuing commitment to monitor the operations of its review and award processes to identify and address excessive reporting burdens. The Foundation is also committed to monitor and identify any real or apparent inequities based on gender, race, ethnicity, or handicap of the proposed principal investigator(s)/ project director(s) or co-principal investigator(s)/co-project director(s). The collection of this information is a part of the regular submission of proposals to the Foundation.

Dated: July 14, 1998.

**Mary Lou Higgs,**

Acting NSF Clearance Officer.

**NATIONAL SCIENCE FOUNDATION**

**Special Emphasis Panel in Design, Manufacture & Industrial Innovation; Notice of Meeting**

This notice is being published in accord with the Federal Advisory Committee Act (Pub. L. 92-463, as amended). During the period of August 12-September 30, 1998, the Special Emphasis Panel in Design, Manufacture & Industrial Innovation (1194) will be holding panel meetings to review and evaluate Small Business Innovation Research (SBIR) proposals. All meetings will be held at the National Science Foundation. The dates, topics and areas of proposals are as follows:

Date	Topic and area
August 6-7, 1998 .....	Topic 23, Mechanics and Materials.
