SUPPLEMENTARY INFORMATION:

Background

On June 23, 1998, the Commission received a request to review its affirmative determinations concerning silicon metal from Argentina, Brazil, and China (the request), in light of changed circumstances, pursuant to section 751(b) of the Act.³ The request was filed by counsel on behalf of General Motors Corp. (GM), Detroit, MI. GM is an importer of silicon metal.

The alleged changed circumstances in the request include: (1) Structural changes in demand for silicon metal since the original investigations, (2) the development of evidence regarding a silicon metal price-fixing conspiracy, and (3) the extent to which price fixing in the ferrosilicon market may have affected the Commission's silicon metal investigations and determinations.

Written Comments Requested

Pursuant to section 207.45(b) of the Commission's Rules of Practice and Procedure,⁴ the Commission requests comments concerning whether the alleged changed circumstances are sufficient to warrant institution of review investigations.

Written Submissions

In accordance with section 201.8 of the Commission's rules,⁵ the signed original and 14 copies of all written submissions must be filed with the Secretary to the Commission, 500 E Street, SW, Washington, DC 20436. All comments must be filed no later than August 21, 1998, which is at least 30 days after the date of publication of this notice in the **Federal Register**. The Commission's determination regarding initiation of review investigations is due within 30 days of the close of the comment period. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request business confidential treatment under section 201.6 of the Commission's rules.⁶ Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. Each sheet must be clearly marked at the top

"Confidential Business Information." The Commission will either accept the submission in confidence or return it. All nonconfidential written submissions will be available for public inspection in the Office of the Secretary.

Copies of the non-confidential version of the request and any other documents in this matter are available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission; telephone 202-205-2000.

Issued: July 15, 1998.

By order of the Commission.

Donna R. Koehnke,

Secretary.

BILLING CODE 4410-15-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

Notice is hereby given that a proposed Consent Decree ("Decree") in *United States v. Lamb-Weston, Inc.*, Civil Action No. 98-0280-S-LMB, was lodged on July 1, 1998, with the United States District Court for the District of Idaho.

The complaint alleges that defendant Lamb-Weston, Inc. ("Lamb-Weston") violated the New Source Performance Standards ("NSPS"), 40 C.F.R. Part 60, Subparts A and Db, at its potato processing plants in American Falls, and Twin Falls, Idaho (collectively "the Plants"). The Plants are affected facilities as defined in the NSPS, which require: notification of construction, anticipated startup, and actual startup of affected facilities; performance testing of affected facilities; monitoring of emissions from affected facilities; and maintenance of records of such monitoring. Lamb-Weston failed to timely comply with these requirements at the Plants, as required by Sections 111 and 113 of the Clean Air Act ("CAA"), 42 U.S.C. 7411 and 7413.

Under the proposed Decree, Lamb-Weston shall pay the United States a civil penalty of \$160,000. Lamb-Weston will also complete two supplemental environmental projects ("SEPs"), at a cost of approximately \$364,000. Lamb-Weston's first SEP is replacement of a burner at its American Falls plant with a Low-NO_x Burner that will reduce NO_x emissions at that plant by at least 40 percent. Lamb-Weston's second SEP is the design, construction and operation of a wastewater recycling system at its Twin Falls plant. Currently, Lamb-Weston uses a silt water system to transport whole potatoes from the Twin
