

(unapproved) full or abbreviated applications received by the agency prior to February 19, 1998, sponsors have until the time of next revision of their labels or by February 19, 2003, whichever comes first, to comply with the amendments and they must report these minor changes in their next annual report. The guidance also advises that full or abbreviated applications received by FDA after February 19, 1998, should provide labels and labeling in compliance with the amendments.

This revised guidance document represents the agency's current thinking on implementation of the elimination of certain labeling requirements. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute, regulations, or both.

Interested persons may, at any time, submit written comments on the guidance to the Dockets Management Branch (address above). Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The guidance and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: July 10, 1998.
