#### OMB Approval Numbers Under the Paperwork Reduction Act: Technical Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule; correcting amendments.

**SUMMARY:** This document contains corrections to the final regulations which were published in the **Federal Register** on February 17, 1998 (63 FR 7709). The regulations related to the amendment of the table that lists the Office of Management and Budget (OMB) control numbers issued under the PRA for Regulation of Fuel and Fuel Additives, Standards for Reformulated and Conventional Gasoline.

**EFFECTIVE DATE:** This correction is effective July 24, 1998.

**FOR FURTHER INFORMATION CONTACT:** Karen Smith, 202-564-9674.

**SUPPLEMENTARY INFORMATION:**

#### Need for Correction

As published, the final regulations contain errors and inadvertently include portions of the OMB approval list which may prove misleading and need to be clarified. The final regulation inadvertently added sections that were already properly included in an earlier document (See 63 FR 1059, January 8, 1998). Since these entries are duplicative, this document removes the spans that are no longer needed (80.91-80.94 and 80.128-80.130). These ICRs were previously subject to public notice and comment prior to OMB approval. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act (5 U.S.C. 553(b)(B)) to correct this table without prior notice and comment. Due to the technical nature of the table, further notice and comment would be unnecessary.

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4), or require prior consultation with State officials as specified by Executive Order 12875 (58 FR 58093, October 28, 1993), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). Because this action is not subject to notice and comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. However, section 808 provides that any rule for which the issuing agency for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rule) that notice and public procedure thereon are impracticable, unnecessary or contrary to the public interest, shall take effect at such time as the agency promulgating the rule determines. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and

established an effective date of July 24, 1998. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).
