Decision List No. 92,

Personnel Security Hearing

Personnel Security Hearing, 7/1/98, VSO-0200

A Hearing Officer found that an individual had not successfully mitigated security concerns arising from his habitual use of alcohol and his

the DOE consultant psychiatrist's diagnosis of borderline personality disorder. However, the Hearing Officer found that the DOE consultant psychiatrist's diagnosis of cannabis abuse was not well-founded and that the individual's attention deficit disorder was not causing and would not cause a significant defect in her judgment or reliability. The Hearing Officer also found that the individual's two suicide attempts, arrests for negligent use of a firearm and violation of a restraining order, and her one-time use of marijuana demonstrated that she had engaged in unusual conduct or to have been subject to circumstances which tend to show that she was not honest, reliable, or trustworthy; or which furnished reason to believe that she may be subject to pressure, coercion, exploitation, or duress which may cause her to act contrary to the best interests of the national security. Accordingly, the Hearing Officer recommended that the individual not be granted access authorization.

Refund Applications

The Office of Hearings and Appeals issued the following Decisions and Orders concerning refund applications, which are not summarized. Copies of the full texts of the Decisions and Orders are available in the Public Reference Room of the Office of Hearings and Appeals.
