Medicaid Program; Decision on Funding for the AIDS Healthcare Foundation START Program

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice.

SUMMARY: This notice announces the award of a grant in the sum of \$1 million to the AIDS Healthcare Foundation of Los Angeles for a demonstration project entitled, "START PROGRAM: Success Through Anti-Retroviral Therapy."

FOR FURTHER INFORMATION CONTACT: Wayne Smith, Ph.D., Center for Medicaid and State Operations, (410) 786-6762.

SUPPLEMENTARY INFORMATION: This award is made based on language in H.R. Conf. Rept. 105-390 at 86 (1997) attendant to our agency's administrative budget authorization for Fiscal Year 1998 that directed us to devote "\$1,000,000 within research to conduct a demonstration of residential treatment facilities at the AIDS Healthcare Foundation in Los Angeles."

The START program is a 4- to 6-week residential program designed to increase the "adherence" to HIV and AIDS medication regimens of individuals at high risk for non-adherence, or a history of non-adherence. The goals of the program are: (1) To educate participants and influence positive "medication-taking" habits and behaviors whereby they internalize successful treatment adherence strategies, (2) to assist participants in achieving and maintaining long term adherence, (3) to monitor and reinforce participants' success by analyzing viral load and CD4 counts, and (4) to provide ancillary support to assure successful compliance.

The purpose of this grant is to demonstrate how compliance with the complicated medication regimen for people living with HIV and AIDS who are at high risk of noncompliance can be increased by a short-term residential treatment program. The START program provides these individuals with a sheltered, structured environment in which the regimen can be established and residents can be counseled and supported.
