

Members of the public may now inspect and copy documents related to the Crownpoint Uranium Solution Mining Project at the Dine College, Crownpoint, New Mexico. The hours of operation at the College Library are: Monday through Thursday 8:00 a.m. to 9:00 p.m. and Friday 8:00 a.m. to 5:00 p.m. Patrons should call ahead to confirm weekend hours.

For further information, interested parties in the Crownpoint, New Mexico, area may contact the LPDR directly through Ms. Jean Whitehorse, Librarian, telephone number (505) 786-7223. Parties outside the service area of the LPDR may address their requests for information and records to the NRC's Public Document Room, Washington, DC 20555-0001, or telephone toll-free 1-800-397-4209.

Dated at Rockville, Maryland, this 4th day of August, 1998.

For the Nuclear Regulatory Commission.

Russell A. Powell,

*Chief, Information Services Branch,
Information Management Division, Office of
the Chief Information Officer.*

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance, Availability, and Notice of Public Meeting

The Nuclear Regulatory Commission has issued for public comment a draft of a guide planned for its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, DG-4005 (which should be mentioned in all correspondence concerning this draft guide), is titled "Preparation of Supplemental Environmental Reports for Applications To Renew Nuclear Power Plant Operating Licenses." The guide is intended for Division 4, "Environmental and Siting." This draft guide is being developed to provide guidance on the format and content of an environmental report to be submitted as part of an application for the renewal of a nuclear power plant operating license.

The draft guide has not received complete staff review and does not represent an official NRC staff position.

Public comments are being solicited on Draft Regulatory Guide DG-4005. Comments may be accompanied by additional relevant information or supporting data. Written comments may be submitted to the Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street NW., Washington, DC. Comments will be most helpful if received by October 23, 1998.

You may also provide comments via the NRC's interactive rulemaking website through the NRC home page (<http://www.nrc.gov>). This site provides the availability to upload comments as files (any format), if your web browser supports that function. For information about the interactive rulemaking website, contact Ms. Carol Gallagher, (301) 415-5905; e-mail CAG@nrc.gov.

Although a time limit is given for comments on this draft guide, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

A public meeting will be held on Friday, September 25, 1998, to answer questions about DG-4005 and to take comments on how it may be improved. The meeting will begin at 9:00 AM and end at 5:00 PM or earlier. It will be held in the NRC Auditorium at Two White Flint North, 11545 Rockville Pike, Rockville, MD 20852-2738. Individuals wishing to comment at the meeting are encouraged to inform Mr. Donald Cleary by September 18, 1998. Individuals not preregistered to speak will be given the opportunity to do so as time permits. Mr. Cleary's telephone number is (301) 415-3903, his e-mail address is dpc@nrc.gov, and his mail address is U.S. Nuclear Regulatory Commission, O-11E1, Washington, DC 20555-0001.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. Requests for single copies of draft or final guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Reproduction and Distribution Services Section; or by fax at (301) 415-2289; or by email to GRW1@NRC.GOV. Telephone requests cannot be accommodated. Regulatory

guides are not copyrighted, and Commission approval is not required to reproduce them. (5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 28th day of July 1998.

For the Nuclear Regulatory Commission.

John W. Craig,

*Director, Division of Regulatory Applications,
Office of Nuclear Regulatory Research.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Source Material; Domestic Licensing; Domestic Uranium and Thorium Recovery Activities; Meetings

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of upcoming public meetings.

The Nuclear Regulatory Commission (NRC) is conducting an evaluation of the entire regulatory framework used by the NRC staff to license and regulate domestic uranium and thorium recovery activities. Additionally, NRC has received a White Paper from the National Mining Association (NMA) setting forth NMA's views and recommendations on four uranium recovery issues: (1) NRC and non-Agreement State concurrent jurisdiction at uranium mill sites, (2) NRC jurisdiction of groundwater protection at uranium in-situ leach facilities, (3) NRC's policy on the disposal of non-11e(2) byproduct material at uranium mill tailings sites, and (4) NRC's policy on the processing of alternate feed material at uranium mills. Copies of the White Paper can be obtained through the NRC's public document room (PDR). The PDR can be contacted at (202) 634-3273.

In an effort to seek early public input in the process and public comments on the NMA recommendations, NRC has scheduled four public meetings in August of 1998 in states where uranium recovery activities are conducted. NRC staff intends to consider the information provided at these meetings in its development of recommendations on how best to proceed in the evaluation of the current uranium recovery regulatory framework and in its consideration of NMA's issues. In addition, NRC intends to use the meetings to provide scoping information for the Environmental Assessment or Environmental Impact Statement that will be issued in support of any rulemaking that could be undertaken.
