[Docket No. CP98-697-000]

Northwest Pipeline Corporation; Notice of Application

August 4, 1998.

Take notice that on July 27, 1998, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed an application in Docket No. CP98-697-000 pursuant to Section 7(b) of the Natural Gas Act, for permission and approval to abandon its Hagood Meter Station and the associated 4-inch Hagood Lateral located in Rio Blanco County, Colorado, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Northwest proposes to abandon, by removal its Hagood Meter Station, and to abandon in place, the approximately 2,200 feet of associated 4-inch Hagood Lateral, at an estimated cost of \$7,800. It is stated that the subject facilities were constructed to purchase natural gas for Northwest's system supply and to receive gas for transportation. Northwest states it now operates solely as a transporter of gas and has no received any gas at the Hagood Meter Station since 1988. Northwest indicates it has not existing transportation agreement obligations to receive gas at the Hagood Meter Station, and that retiring those inactive facilities will slightly reduce its rate base and associated operating and maintenance expenses to the ultimate benefit of all rate payers on the system.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 25, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing

to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Northwest to appear or be represented at the hearing.

David P. Boergers,

Secretary.
