BILLING CODE 6560-50-P

**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-6140-2]

**Rhode Island Marine Sanitation Device Standard; Notice of Determination**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** On March 6, 1998 notice was published that the State of Rhode Island had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for all waters within the 3 mile territorial limit of Rhode Island's

coastline and all coastal shore ponds which would include Point Judith and Potter Ponds, Quonochontaug Pond, Ninigret and Green Hill Ponds, Winnapaug Pond, the Pawcatuck River and also within the 3 mile territorial waters surrounding Block Island. The petition was filed pursuant to section 312(f)(3) of Public Law 92-500, as amended by Public Law 95-217 and 100-4, for the purpose of declaring these waters a "No Discharge Area" (NDA).

Section 312(f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such States require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

The information submitted to me by the State of Rhode Island certified that there are forty-three disposal facilities available to service vessels operating in the marine waters of Rhode Island. A list of the facilities, phone numbers, locations, and hours of operation is appended at the end of the determination.

Based on the examination of the petition and its supporting information, which included site visits by EPA New England staff, newspaper articles, 120

comment letters, scientific studies, I have determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination which include all marine waters within the 3 mile territorial limit of Rhode Island's coastline and all coastal shore ponds which would include Point Judith and Potter Ponds, Quonochontaug Pond, Ninigret and Green Hill Ponds, Winnapaug Pond, the Pawcatuck River and also within the 3 mile territorial waters surrounding Block Island. The areas covered under this petition include Latitude 71° 22' 55" Longitude 41° 53' 36" at the Providence River, Latitude 71° 13' 09", 71° 12' 18" Longitude 41° 42' 11", 41° 41' 09" in Mount Hope Bay, Latitude 71° 07' 04", Longitude 41° 26' 25" at the Massachusetts state border, and Latitude 71° 55' 48" Longitude 41° 16' 40" at the Connecticut border.

This determination is made pursuant to section 312(f)(3) of Public Law 92-500, as amended by Public Law 95-217 and 100-4.

A Response to Comments was prepared for the 120 communications the EPA New England received during the 60-day comment period, and may be requested from EPA by written request to Ann Rodney, U.S. Environmental Protection Agency—New England, Office of Ecosystem Protection, Water Quality Unit (CWQ), JFK Federal Building, Boston, MA 02203.

Dated: July 30, 1998.

**John P. DeVillars,**

*Regional Administrator, Region I.*
