48 CFR Part 1819

Mentor-Protégé

AGENCY: National Aeronautics and Space Administration (NASA)

ACTION: Final rule.

SUMMARY: This is a final rule amending the NASA FAR Supplement (NFS) to extend the NASA Mentor-Protégé Program to complete a comprehensive evaluation of it.

EFFECTIVE DATE: August 19, 1998.

FOR FURTHER INFORMATION CONTACT: Christopher T. Jedrey, NASA Office of Procurement, Contract Management Division (Code HK), (202) 358-0483.

SUPPLEMENTARY INFORMATION:

Background

The NASA Mentor-Protége Program began on March 24, 1995.

The Program is designed to incentivize NASA prime contractors to assist small disadvantaged business concerns, Historically Black Colleges and Universities, minority institutions, and women-owned small business concerns. The NASA Mentor-Protége Program is fully described in NFS Subpart 1819.72, including the criteria for Program success. NASA is currently in the midst of the required Program evaluation which it expects to complete by approximately September 30, 1998. The duration of the program is being extended to March 31, 1999 to allow for this comprehensive evaluation to be completed, proposed changes or recommendations evaluated, and any resulting program changes codified.

Impact

NASA certifies that this regulation will not have a significant economic impact on a substantial number of small business entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) since it is only extending an existing program to allow for a comprehensive evaluation; no new requirements are imposed on offerors or contractors. This final rule does not impose any reporting or recordkeeping requirements subject to the Paperwork Reduction Act.

Fisheries off West Coast States and in the Western Pacific; Northern Anchovy Fishery; Quotas for the 1998-99 Fishing Year

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final quotas.

SUMMARY: NMFS announces the estimated spawning biomass and final harvest quotas for the northern anchovy fishery in the exclusive economic zone south of Point Reyes, CA, for the 1998-99 fishing year. These quotas may only be adjusted if inaccurate data were used or if errors were made in the calculations. Comments on these two points are invited. We will revise the quotas by a subsequent rulemaking if the comments warrant it. The intended effect of this action is to establish allowable harvest levels for the central subpopulation of Pacific anchovy.

DATES: Effective on August 15, 1998. Comments will be accepted until September 17, 1998.

ADDRESSES: Submit comments on the final quotas to Dr. William T. Hogarth, Administrator, Southwest Region, (Regional Administrator), NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213. Administrative Reports LJ-95-11 and LJ-97-08 are available from this same address.

FOR FURTHER INFORMATION CONTACT: Mr. James J. Morgan, Southwest Region, NMFS, (562) 980-4030.

SUPPLEMENTARY INFORMATION: In consultation with the California Department of Fish and Game and with the NMFS Southwest Fisheries Science Center, the Administrator, Southwest Region, NMFS, has decided to use the 1995 estimate of 388,000 metric tons (mt) spawning biomass for the central subpopulation of northern anchovy, *Engraulis mordax*, to set harvest limits for the 1998-99 fishing year. This is the same biomass estimate that was used for the 1995-96, 1996-97, and 1997-98 fishing years, and is being used because no new assessment has been made. Indices of relative abundance from fish-spotter logs and egg production from research cruises in 1997 indicated that
