14 CFR Part 71

[Airspace Docket No. 98–ASO–7]

Amendment of Class E Airspace; Savannah, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment modifies Class E airspace at Savannah, TN. A Non-directional Beacon (NDB) Runway (RWY) 19 Standard Instrument Approach Procedure (SIAP) has been developed for Savannah-Hardin County

Airport. As a result, additional controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to accommodate the SIAP at Savannah-Hardin County Airport. The Class E airspace has been increased from a 6.4 to a 6.5-mile radius and the width of the airspace each side of the 009° bearing from the Pinhook NDB extending from the 6.5-mile radius to 7 miles north of the NDB is increased from 2.4 to 3.2 miles.

EFFECTIVE DATE: 0901 UTC, October 8, 1998.

SUPPLEMENTARY INFORMATION:

History

On June 26, 1998, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by amending Class E airspace at Savannah, TN, (63 FR 34838). This action provides adequate Class E airspace for IFR operations at Savannah-Hardin County Airport. Designations for Class E airspace extending upward from 700 feet or more above the surface of the earth are published in FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) modifies Class E airspace at Savannah, TN. A NDB RWY 19 SIAP has been developed for Savannah-Hardin County Airport. Additional controlled airspace extending upward from 700 feet AGL is needed to accommodate the SIAP and for IFR operations at Savannah-Hardin County Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation, as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
