[Docket No. CP98-708-000]

NorAm Gas Transmission Company; Notice of Request Under Blanket Authorization

August 14, 1998.

Take notice that on August 4, 1998, as supplemented on August 10, 1998, NorAm Gas Transmission Company (NorAm), 1111 Louisiana Street, Houston, Texas, filed in Docket No. CP98-708-000 a request pursuant to Sections 157.205, and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211(b)) for authorization to install a delivery tap and related facilities to deliver increased volumes of gas to an existing customer, Cross Oil Refining and Marketing, Inc. (Cross), located in Union County, Arkansas. Specifically, NorAm proposes to install a 4-inch tap on its Line K and to construct 2.4 miles of 6-inch pipe (Line KT-10), under the blanket certificate issued and amended in Docket Nos. CP82-384-000 and CP82-384-001, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

NorAm states that these new facilities will allow peak day and annual deliveries of 4,000 Dth and 1,460,000 Dth, respectively. NorAm estimates the cost of construction to be \$295,000, and states that Cross will reimburse NorAm for 50% of the total cost of these facilities. Currently, NorAm serves Cross' refinery through a delivery tap located on Line HM-18, a 4-inch diameter, low pressure, lateral line which is only capable of delivering only 3,000 Dth per day.

Cross has executed an amendment to its firm transportation agreement to provide for a new contract demand total of 4,000 Dth per day and to establish Line KT-10 as the new primary delivery point. NorAm states that it will make minor modifications to the existing meter station to allow for higher pressure gas to be delivered to Cross. According to NorAm, Line HM-18 will stay in service as a backup source of delivery. NorAm states that it has sufficient capacity to accomplish the deliveries without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice

of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

David P. Boergers,
Secretary.

[Docket No. CP98-715-000]

Northern Natural Gas Company; Notice of Request Under Blanket Authorization

August 14, 1998.

Take notice that on August 10, 1998, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124-1000, filed a request with the Commission in Docket No. CP98-715-000, pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to install and operate a new delivery point and appurtenant facilities, located in Yoakum County, Texas, authorized in blanket certificate issued in Docket No. CP82-401-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northern proposes to install and operate a new delivery point and appurtenant facilities to provide natural gas transportation service to Golden Spread Electric Cooperative, Inc., Electric Generating Cooperative, Inc. and Denver City Energy Associates, L.P. (hereinafter referred to as Golden Spread). Northern would install two (2) taps at its Plains Compressor Station plus install EFM and scada equipment at a downstream measurement/interconnect point between Northern's and Golden Spread's facilities. Northern states that service would be provided to Golden Spread pursuant to currently effective throughput service agreement(s). Northern reports that Golden Spread has requested the proposed delivery point to provide fuel for its Mustang Plant.

Northern further reports that the volumes to be delivered to Golden Spread would be 90,000 MMBtu on a peak day and 16,420,000 MMBtu on an annual basis. Northern estimates a facility cost of approximately \$132,000 which would be reimbursed by Golden Spread. Golden Spread would construct or cause to be constructed, approximately 0.6 miles of pipeline from the taps to the proposed delivery point at its own expense.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

David P. Boergers,
Secretary.
