The Indiana Department of Environmental Management (IDEM) has adopted new analytical methods, withdrawn outdated analytical methods, and updated older analytical methods for drinking water contaminants. The IDEM has also adopted technical amendments to correct typographical errors and clarify regulatory language. These regulations correspond to the NPDWRs promulgated by the United States Environmental Protection Agency (U.S. EPA) on June 30, 1994, (59 FR 33860-33864); on July 1, 1994, (59 FR 34320-34325); on June 29, 1995 (60 FR 33926-33932); and on December 5, 1994, (59 FR 62456-62471), as amended on June 29, 1995, (60 FR 34084-34086). The U.S. EPA has completed its review of Indiana's PWSS primacy program revision.
