

60064-3095. *Instrument:* Electrode Puller, Model PD-5. *Manufacturer:* Narishige Co., Japan. *Intended Use:* The instrument will be used for investigations of the cellular and network properties of the nervous system in the marine mollusk *Tritonia diomedea* that underlie decision-making and learning. *Application accepted by Commissioner of Customs:* July 20, 1998.

*Docket Number:* 98-038. *Applicant:* The Salk Institute for Biological Studies, 10010 North Torrey Pines Road, La Jolla, CA 92037. *Instrument:* Diffractometer and X-Ray Generator, Models DIP-2030H and MO6X. *Manufacturer:* MAC Science Co., Ltd., Japan. *Intended Use:* The instrument is intended to be used to collect x-ray diffraction data from crystals made with certain biological macromolecules in order to study phenomena such as signal transduction, ion conductance and protein DNA recognition. The experimental plan will consist of purifying the proteins, crystallizing them in an optimum condition in the wet bench laboratory, then recording the diffraction pattern using the x-ray instrument and imaging plates system. *Application accepted by Commissioner of Customs:* July 24, 1998.

*Docket Number:* 98-039. *Instrument:* Laser Optics, Version 2. *Manufacturer:* Radiant Dyes Laser Accessories, GmbH, Germany. *Docket Number:* 98-040. *Instrument:* Laser, Model SL404G-10. *Manufacturer:* Spectron Laser Systems, United Kingdom. *Applicant:* Princeton University, Purchasing Department, Armory Building, 110 Washington Road, Princeton, NJ 08544. *Intended Use:* The instruments will be used for studies of the atmospheric constituents sulfuric acid and water. Experiments will consist of mixing sulfuric acid and water vapors and ionizing them with multi-photon ionization using the Nd-YAG and dye lasers to determine the rate of formation of particles from sulfuric acid and water mixtures. *Applications accepted by Commissioner of Customs:* July 30, 1998.

## DEPARTMENT OF COMMERCE

### International Trade Administration

#### University of California, San Diego; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

*Docket Number:* 98-031. *Applicant:* University of California, San Diego, La Jolla, CA 92093-0358. *Instrument:* Electron Beam Evaporation Source. *Manufacturer:* Oxford Applied Research, United Kingdom. *Intended Use:* See notice at 63 FR 35911, July 1, 1998.

*Comments:* None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides: (1) four pockets to be used with three rods for simultaneous evaporation of three elements and (2) built-in flux monitors for each pocket. The National Institute of Standards and Technology advises that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use (comparable case).

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

## COMMODITY FUTURES TRADING COMMISSION

### Chicago Board of Trade: Proposed Amendments to the Wheat Futures Contract Regarding Vomitoxin in Deliverable Wheat

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice of proposed contract market rule change.

**SUMMARY:** The Chicago Board of Trade (CBT or Exchange) has submitted amendments to its wheat futures contract that would permit receivers of wheat futures deliveries to require that wheat loaded out from delivery warehouses have a vomitoxin content of no more than 5 parts per million. The Commission has determined to request public comment on the proposed CBT rule based upon its finding that the proposed rule is of major economic significance within the meaning of section 5a(a)(12) of the Commodity Exchange Act (Act) and that its publication is in the public interest and will assist the Commission in considering the views of interested persons.

**DATE:** Comments must be received on or before September 21, 1998.

**ADDRESSES:** Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW, Washington, DC 20581. In addition, comments may be sent by facsimile transmission to facsimile number (202) 418-5521, or by electronic mail to secretary@cftc.gov. Reference should be made to the CBT wheat futures contract vomitoxin proposal.

**FOR FURTHER INFORMATION CONTACT:** Please contact Fred Linse of the Division of Economic Analysis, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW, Washington, DC 20581, telephone (202) 418-5273, facsimile number (202) 418-5527, or electronically at flinse@cftc.gov.

**SUPPLEMENTARY INFORMATION:** Currently, the CBT futures contract contains no provisions relating to vomitoxin in deliverable wheat. The proposed CBT amendments would provide the parties that receive delivery of wheat under the futures contract may request that the wheat loaded out from the delivery warehouse contain no more than 5 parts per million of the fungus deoxynivalenol (vomitoxin). Under the proposed amendments, the delivery receiver would be required to pay for inspection of the delivery wheat for vomitoxin content, with such inspection being done at the time of load out by the Federal Grain Inspection Service or by a third party inspection service which is mutually agreeable to the delivery receiver and the deliverer.

The Exchange plans to implement the proposed amendments on September 1, 1999. Under the proposed implementation plan, CBT registered warehouse receipts issued prior to September 1, 1999 will be deliverable
