

to connect key wildlife areas with the river and other wildlife areas; and evaluate the impacts associated with the alternatives under consideration. Significant issues which have been identified to be addressed in the EIS include but are not limited to affects on: (a) Fish and wildlife; (b) terrestrial habitat; (c) endangered species; (d) aquatic habitats; (e) cultural resources; and (f) water quality.

Coordination has been ongoing and will continue with the United States Fish and Wildlife Service to insure compliance with section 7 of the Endangered Species Act of 1973, as amended. Cultural resources reconnaissance for the project area will be coordinated with the Texas State Historic Preservation Officer.

The environmental review of this project will be conducted in accordance with the requirements of NEPA, CEQ Regulations (40 CFR Parts 1500–1508), other appropriate federal regulations, and the USIBWC procedures for compliance with those regulations. Copies of the EIS will be transmitted to federal and state agencies and other interested parties for comments and will be filed with the Environmental Protection Agency in accordance with 40 CFR parts 1500–1508 and USIBWC procedures.

The USIBWC anticipates the Draft EIS will be made available to the public by November, 1999.

Dated: August 20, 1998.
