

revenues needed for the next rate period.

The FY 1998 PRS indicates the need for an annual revenue decrease of 0.2 percent. As has been the case since the existing rates were approved, the FY 1998 rate adjustment needed falls within Southwestern's plus-or-minus two percent Rate Adjustment Threshold and would normally be deferred. However, the existing rates expire on September 30, 1998. Consequently, Southwestern proposes to extend the existing rates for a one-year period ending September 30, 1999, on an interim basis under the implementation authorities noted in 10 CFR 903.22(h) and 903.23(a)(3). Southwestern continues to make significant progress toward repayment of the Federal investment in the Sam Rayburn Dam Project. Through FY 1997, status of repayment for the Sam Rayburn Dam Project was \$12,156,954, which represents approximately 47 percent of the \$25,676,015 Federal investment. The status has increased almost 31.7 percent since the existing rates were placed in effect.

Information regarding this rate extension, including studies and other supporting material, is available for public review and comment in the offices of Southwestern Power Administration, Suite 1400, One West Third Street, Tulsa, Oklahoma 74103.

Order

In view of the foregoing and pursuant to the authority delegated to me by the Secretary of Energy, I hereby extend on an interim basis, for the period of one year, effective October 1, 1998, the current FERC-approved Sam Rayburn Dam Project Rate for the sale of power and energy.

Dated: August 14, 1998.

Elizabeth A. Moler,

Deputy Secretary.

National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A meeting of the National Advisory Committee for Acute Exposure

Guideline Levels for Hazardous Substances (NAC/AEGL Committee) will be held on September 14-16, 1998, in Oak Ridge, Tennessee. At this meeting, the NAC/AEGL Committee will address, as time permits, the various aspects of the acute toxicity and the development of Acute Exposure Guideline Levels (AEGs) for the following chemicals: carbon tetrachloride, ethylene oxide, furan, hydrogen sulfide, iron pentacarbonyl, isobutyronitrile, methacrylonitrile, nitrogen oxides, piperidine, propionitrile, propylene oxide, and propyleneimine.

DATES: A meeting of the NAC/AEGL Committee will be held from 10 a.m. to 5 p.m. on Monday, September 14; from 8 a.m. to 4:45 p.m. on Tuesday, September 15; and from 8 a.m. to 12:30 p.m. on Wednesday, September 16, 1998.

ADDRESSES: The meeting will be held in the Auditorium of Oak Ridge National Laboratory, 1060 Commerce Park, Oak Ridge, TN.

FOR FURTHER INFORMATION CONTACT: Paul S. Tobin, Designated Federal Officer (DFO), Office of Prevention, Pesticides and Toxic Substances (7406), 401 M St., SW., Washington, DC 20460, (202) 260-1736, e-mail: tobin.paul@epa.gov.

For directions to the meeting, contact: Po-Yung Lu, (423) 574-7803 or e-mail: lpy@ornl.gov.

SUPPLEMENTARY INFORMATION: For further information on the scheduled meeting, the agenda of the NAC/AEGL Committee, or the submission of information on chemicals to be discussed at the meeting, contact the DFO.

The meeting of the NAC/AEGL Committee will be open to the public. Oral presentations or statements by interested parties will be limited to 10 minutes. Interested parties are encouraged to contact the DFO to schedule presentations before the NAC/AEGL Committee. Since seating for outside observers may be limited, those wishing to attend the meeting as observers are also encouraged to contact the DFO, at the earliest possible date to ensure adequate seating arrangements. Inquiries regarding oral presentations and the submission of written statements or chemical specific information should be directed to the DFO.

Another meeting of the NAC/AEGL Committee is expected to be held in Washington, DC on December 7-9, 1998. It is anticipated that chemicals to be addressed at this meeting will include, but not necessarily be limited to the following: cyclohexylamine,

ethylenediamine, HFC 134a, HCFC 141b, jet fuel (JP-4, 5, 7, and 8), methyl isocyanate, oleum, sulfur dioxide, sulfur tetrafluoride, sulfur trioxide, and sulfuric acid. Inquiries regarding the submission of data, written statements, or chemical-specific information on these chemicals should be directed to the DFO at the earliest date possible to allow for consideration of this information in the preparation of NAC/AEGL Committee materials.

List of Subjects

Environmental protection, Chemicals, Hazardous substances.

Dated: August 19, 1998.

Joseph S. Carra,

Acting Director, Office of Pollution Prevention and Toxics.

Science Advisory Board; Notification of Public Advisory Committee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Science Advisory Board's (SAB's) Radiation Advisory Committee (RAC) and its Federal Guidance Report Review Subcommittee (FGRRS) will conduct a public teleconference meeting on Friday, September 11, 1998 from 11 am to 1 pm eastern time. The teleconference will be hosted from the SAB Conference Room—Room 3709, Waterside Mall, U.S. EPA Headquarters, 401 M Street, SW, Washington, DC 20460. Documents that are the subject of SAB reviews are normally available from the originating U.S. Environmental Protection Agency (EPA) office and are *not* available from the SAB Office. Public drafts of SAB reports are available to the Agency and the public from the SAB office. Details on availability are noted below.

The Radiation Advisory Committee (and its FGRRS) will review a public draft of the FGRRS report from its review of the Agency's draft document entitled Interim Version of Federal Guidance Report (FGR) Number 13, Part I, Health Risks From Low-Level Environmental Exposure to Radionuclides, EPA 402-R-97-014, dated January 1998.
