South Georgia makes such request under its blanket certificate issued in Docket No. CP82-548-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

South Georgia proposes to construct and operate certain measurement and other appurtenant facilities in order to provide transportation service to Peoples at a new delivery point, so that Peoples, in turn may provide natural gas service to additional customers on its distribution system. South Georgia states that it proposes to locate the facilities at or near Mile Post 68.5 on the 12-inch Jacksonville Line in Baker County, Florida.

In order to provide service to Peoples at the new delivery point, South Georgia proposes to construct, install and operate a meter station consisting of one 3-inch rotary meter and other appurtenant facilities. It is stated that South Georgia will own and operate the meter station as part of its pipeline system. It is indicated that Peoples will construct, own, and operate as part of its natural gas distribution system approximately 30 miles of 4-inch diameter pipeline extending downstream of the meter station.

It is stated that South Georgia will transport gas on behalf of Peoples under South Georgia's existing Service Agreements pursuant to South Georgia's Rate Schedule IT. It is estimated that the average annual volumes for deliveries to the Baker County meter station are 263,000 Mcf which is equivalent to an estimated daily average of 720 Mcf. South Georgia states that the installation of the proposed facilities will have no adverse effect on its ability to provide its firm deliveries.

It is estimated that the construction and installation of the measurement facilities is approximately \$214,200. South Georgia avers that Peoples has agreed to reimburse South Georgia for the cost of constructing and installing the proposed facilities.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request.
