(2) For the purposes of these mandatory inspections, piece-part opportunity means:
(i) The part was damaged completely disassembled when done in accordance with the disassembly instructions in the manufacturers engine manual; and
(ii) The part has accumulated more than 100 cycles in service since the last piece-part opportunity inspection, provided that the part was not damaged or related to the cause for its removal from the engine.

(b) Except as provided in paragraph (c) of this AD, and notwithstanding contrary provisions in section 43.16 of the Federal Aviation Regulations (14 CFR 43.16), these enhanced inspections shall be performed only in accordance with the TLS of the appropriate PW2000 series Engine Manuals.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Engine Certification Office. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Engine Certification Office.

Note 2: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Engine Certification Office.

(d) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The record of the mandatory inspections required as a result of revising the Time Limits section of the PW2000 series Engine Manuals as provided by paragraph (a) of this AD, and do not alter or amend the record keeping requirements for any other AD or regulatory requirement.

Issued in Burlington, Massachusetts, on August 25, 1998.

David A. Downey,
Assistant Manager, Engine and Propeller Directorate, Aircraft Certification Service.

14 CFR Part 71

[Airspace Docket No. 98–ASO–16]

Proposed Establishment of Class D Airspace; Concord, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes to establish Class D airspace at Concord, NC. The City of Concord, North Carolina is installing a control tower at the Concord Regional Airport. Class D surface area airspace is required when the control tower is open to accommodate current Standard Instrument Approach Procedures (SIAPs) and for Instrument Flight Rules (IFR) operations at the airport. This would establish Class D airspace extending upward from the surface to and including 3,200 feet MSL within a 4-mile radius of the Concord Regional Airport. Control tower hours of operation are tentatively scheduled for 0700–2300, daily.

DATES: Comments must be received on or before September 30, 1998.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Docket No. 98–ASO–16, Manager, Airspace Branch, ASO–520, P.O. Box 20636, Atlanta, Georgia 30320.

The official docket may be examined in the Office of the Regional Counsel for Southern Region, Room 550, 1701 Columbia Avenue, College Park, Georgia 30337, both before and after the closing date for comments. A report summarizing each substantive comment received before the closing date for comments a self-addressed, stamped postcard on which the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. All comments submitted will be available for examination in the Office of the Regional Counsel for Southern Region, Room 550, 1701 Columbia Avenue, College Park, Georgia 30337, both before and after the closing date for comments. A report summarizing each substantive comment received before the closing date for comments will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace Branch, ASO–520, P.O. Box 20636, Atlanta, Georgia 30320. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2A which describes the application procedure.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish Class D airspace at Concord, NC. The City of Concord, North Carolina is installing a control tower at the Concord Regional Airport. Class D
surface area airspace is required when the control tower is open to accommodate current SIAPs and for IFR operations at the airport. Class D airspace designations for airspace areas extending upward from the surface are published in Paragraph 5000 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

The Proposed Amendment
In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

§ 71.1 [Amended]
2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

Paragraph 5000 Class D Airspace.

ASO NC D Concord, NC [New]
Concord Regional Airport, NC
(lat. 35°23′11″N; long. 80°42′58″W)

That airspace extending upward from the surface to and including 3,200 feet MSL within a 4-mile radius of Concord Regional Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Issued in College Park, Georgia, on August 20, 1998.
John C. Thompson,
Acting Manager, Air Traffic Division, Southern Region.

[REG–104565–97]

RIN 1545–AV50

Revision of the Tax Refund Offset Program

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the administration of the Tax Refund Offset Program (TROP). This action is necessary because TROP, which is currently administered by the IRS, is being merged into the centralized administrative offset program known as the Treasury Offset Program (TOP), which is administered by the Financial Management Service (FMS). These regulations will affect State and Federal agencies that participate in TROP.

DATES: Written comments and requests for a public hearing must be received by November 30, 1998.

ADDRESSES: Send submissions to:
CC:DOM:CORP:R (REG–104565–97), room 5226, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. Submissions may be hand delivered between the hours of 8 a.m. and 5 p.m. to:

FOR FURTHER INFORMATION CONTACT: John J. McGreevy, (202) 622–4910 (not toll-free number).

SUPPLEMENTARY INFORMATION:
Background
This document contains proposed amendments to the Procedure and Administration Regulations (26 CFR part 301) relating to section 6402 (c) and (d). The proposed regulations contain revised effective dates for the regulations under section 6402 (c) and (d).

Explanation of Provisions
Section 6402(c) provides, in general, that the amount of any overpayment to be refunded to the person making the overpayment must be reduced by the amount of any past-due support (as defined in section 464(c) of the Social Security Act) owed by that person of which the Secretary has been notified by a State in accordance with section 464 of the Social Security Act.

Section 6402(d) provides, in general, that upon receiving notice from any Federal agency that a named person owes a past-due, legally enforceable debt to that agency, the Secretary must reduce the amount of any overpayment payable to that person by the amount of the debt, pay the amount by which the overpayment is reduced to the agency, and notify the person making the overpayment that the overpayment has been reduced.

The IRS currently makes offsets pursuant to section 6402 (c) and (d) according to regulations prescribed under those sections. See §§ 301.6402–5 and 301.6402–6 of the Regulations on Procedure and Administration.

Section 31001(v)(2) and (w) of the Debt Collection Improvement Act of 1996 (110 Stat. 1321–375), amended 42 U.S.C. 664(a)(2)(A) and 31 U.S.C. 3720A(h), respectively, to clarify that the disbursing agency of the Treasury Department may conduct tax refund offsets. The disbursing agency of the Treasury Department is the FMS. The IRS and FMS have agreed that the Tax Refund Offset Program (TROP), which is currently administered by the IRS, will be merged into the centralized administrative offset program known as the Treasury Offset Program (TOP), which is administered by the FMS. The merger of the two programs is intended to maximize and improve the Treasury Department's government-wide collection of non-tax debts, including those subject to offset against the debtor's Federal tax refund.
