II. Background

In the **Federal Register** of May 13, 1998 (63 FR 26591) (FRL-5786-8), EPA issued for comment a notice announcing the availability of a draft, updated policy for the prioritization and expedited review of applications for significant OP alternative new active ingredients and new uses for conventional, primarily agricultural pesticides. This **Federal Register** notice announces the availability of the final Pesticide Registration (PR). The PR Notice changes how reduced-risk candidates will be treated in the priority system. Specifically, the PR Notice amends EPA's current priority scheme by making OP alternatives that pass the reduced-risk screen the second highest priority (#2) behind methyl bromide alternatives (#1). Also, any submission that is determined to be a significant OP alternative, which is not granted reduced-risk status, but is recommended by the Reduced-Risk Committee for expedited review, may become an Agency priority as well. Furthermore, any submission that passes the reduced-risk screen may become an Agency priority. An Agency priority does not count against a company's limit of five priorities.

Public comments submitted concerning the draft PR Notice and the issues listed in the previous FR Notice of Availability were fully considered before the PR Notice was made final.

Availability of Hard Copy Summary Report on the Sector Facility Indexing Project

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of a hard copy summary report on the Sector Facility Indexing Project (SFIP). The SFIP is a community-right-to-know and data integration pilot project that provides environmental performance data for facilities within five industrial sectors. The industrial sectors profiled within the SFIP are automobile assembly; petroleum refining; pulp manufacturing; iron and steel; and primary smelting and refining of aluminum, copper, lead, and zinc (nonferrous metals). The summary report is a publication that provides aggregated, pre-formatted information. On May 1, 1998, the EPA released the Internet website containing the SFIP data. (See 63 FR 27281, May 18, 1998). The SFIP website is designed as an interactive tool that allows users to customize the information and delve into greater detail to look at information that is too voluminous to include in the hard copy summary report.

DATES: The hard copy summary report is currently available to the public. As previously announced, the Internet SFIP website was released on May 1, 1998.

ADDRESSES: Requests for the hard copy summary report may be sent to: SFIP, 55 Wheeler Street, Cambridge, MA 02138. Requests may also be made to the SFIP telephone hotline at 617-520-3015. The Internet address for the SFIP is the following: <http://www.epa.gov/oeca/sfi>
