Approval and Promulgation of Air Quality Implementation Plans; Maryland; Amendments VOC Regulations for Dry Cleaning and Stage I Vapor Recovery

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve two State Implementation Plan (SIP) revisions submitted by the State of Maryland. The first revision amends Maryland's dry cleaning regulation to eliminate perchloroethylene operations from the volatile organic compound (VOC) requirements. The second revision amends the Stage I Vapor Recovery regulation's gasoline storage tank capacity applicability requirements such that gasoline storage tanks with a capacity of less than 2000 gallons are no longer subject to the regulation. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revisions as a direct final rule without prior proposal because the Agency views these as noncontroversial SIP revisions and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by October 2, 1998.

ADDRESSES: Written comments should be addressed to David L. Arnold, Chief, Ozone and Mobile Sources Branch,

Approval and Promulgation of Air Quality Implementation Plans; Commonwealth of Pennsylvania; Enhanced Motor Vehicle Inspection and Maintenance Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve two State Implementation Plan (SIP) revisions for the Commonwealth of Pennsylvania's enhanced Inspection and Maintenance (I/M) program. These SIP revisions amend the Commonwealth's enhanced I/M SIP to correct certain deficiencies that EPA identified in its January 28, 1997 interim conditional approval of the Commonwealth's SIP. EPA is proposing to remove several conditions and *de minimus* conditions from the interim conditional approval of Pennsylvania's SIP. However, since there remain conditions of approval which Pennsylvania has not yet addressed, the Commonwealth's SIP would continue to be conditionally approved upon finalization of this proposed rule. In the Final Rules section of this **Federal**

Register, EPA is issuing a direct final rule without prior proposal to take the same action upon the Commonwealth's SIP revisions. The Agency views this rulemaking action as noncontroversial and anticipates no adverse public comment. A detailed rationale for the approval is set forth in the direct final rule and in the technical support document prepared by EPA for this action. If no adverse comments are received, no further activity is contemplated with relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by October 2, 1998.

ADDRESSES: Written comments should be addressed to Marcia Spink, Associate Director, Air Programs, Mailcode 3AP00, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street—14th Floor, Philadelphia, Pennsylvania 19103. Copies of relevant documents may also be inspected at the Pennsylvania Department of Environmental Resources Bureau of Air Quality Control, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.
