

SUPPLEMENTARY INFORMATION:

Approximately 491,734 acres of public land within the White River Resource Area are withdrawn "from lease or disposal" and closed to the mining laws, to protect federal oil shale resources. Executive Order 5327, dated April 15, 1930, withdrew all those lands owned by the United States within the lands described in Appendix I, Table I-7, of the Draft White River Resource Management Plan. In order to perform discretionary actions, and in particular, the exchange of lands, the Resource Management Plan stated that the withdrawal would be modified. The oil shale values would still be protected from non-discretionary actions. However, in reviewing the potential for the occurrence of such actions, it is now questionable whether protection via a withdrawal is necessary. Under the actions contemplated in this notice, the Resource Management Plan would be amended to allow revocation of the withdrawal, the withdrawal would be revoked, and certain of those lands formerly protected would be exchanged for other lands, or interests in land.

Dated: August 21, 1998.

John J. Mehlhoff,

Area Manager.
