This land is being offered by direct sale to Goldfield Ghost Town. It has been determined that the subject parcel contains known mineral value for locatable minerals; therefore, the locatable mineral interests will not be conveyed, however, leasable and salable mineral interests may be conveyed simultaneously. Acceptance of the direct sale offer will qualify the purchaser to make application for conveyance of the leasable and salable mineral interests.

The patent, when issued, will contain certain reservations to the United States and will be subject to valid existing rights. Detailed information concerning these reservations as well as specific conditions of the sale are available for review at the Phoenix Field Office, Bureau of Land Management, 2015 W. Deer Valley Road, Phoenix, Arizona 85027.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the Field Manager, Phoenix Field Office, at the above address. In the absence of timely objections, this proposal shall become the final determination of the Department of the Interior.

#### Conveyance of Mineral Interests in California

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Segregation.

**SUMMARY:** The private land described in this notice, aggregating 1,180.15 acres, is segregated and made unavailable for filings under the general mining laws and the mineral leasing laws to determine its suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of

October 21, 1976. The mineral interests will be conveyed in whole or in part upon favorable mineral examination. The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.

#### Arizona: Intent to Prepare a Resource Management Plan Amendment (Wild Horse and Burro Herd Management Area) and Environmental Assessment

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Extension of Issue Identification Period for Notice of Intent to Prepare a Resource Management Plan Amendment/Environmental Assessment and Invitation to Participate in the

Identification of Issues; Yuma Field Office, AZ.

**SUMMARY:** The Bureau of Land Management (BLM), Yuma Field Office, is preparing an Amendment/Environmental Assessment to the Yuma District Resource Management Plan to revise wild horse and burro management provisions.

The proposed Amendment would update management provisions for the Cibola-Trigo Herd Management Area in conformance with the Wild Free-Roaming Horse and Burro Act, as amended, (16 U.S.C. 1331-1340) 1994. Under the proposed Amendment, horses and burros would be managed to maintain an appropriate management level that will provide for a thriving natural ecological balance within the Cibola-Trigo Herd Management Area south of Interstate 10 and west of the impact area from the Yuma Proving Ground firing range located near Highway 95, at the southern portion of the military reservation.

**DATES:** The comment period for the identification of issues related to the proposed Amendment has been extended for an additional 30 days and the comment period will end on September 18, 1998.

**ADDRESSES:** Send comments to: Ron Morfin, BLM Yuma Field Office, 2555 Gila Ridge Road, Yuma, Arizona 85365.

**FOR FURTHER INFORMATION CONTACT:** Ron Morfin, Planning Team Leader, or Roger Oyler, Wild Horse and Burro Specialist, Yuma Field Office, Yuma, Arizona. Telephone (520) 317-3200.

**SUPPLEMENTARY INFORMATION:** The Notice of Intent to Prepare a Resource Management Plan Amendment was initially published in the **Federal Register**, Vol. 63, No. 138 on July 20, 1998. The BLM Yuma Field Office is currently coordinating efforts with the U.S. Fish and Wildlife Service, U.S. Army Yuma Proving Ground, and Arizona Game and Fish Department to develop a cooperative management plan for lands and resources contained within the Cibola-Trigo Wild Horse and Burro Herd Management Area through an interdisciplinary planning team. Considering other land and resource values and multiple uses and to provide for a thriving natural ecological balance, management objectives and direction will be proposed for wild horse and burro herds through this effort to reach and maintain the appropriate management level as established by the Cibola-Trigo Herd Management Area Plan. National BLM policies and guidance at 43 CFR 4700 require that management direction affecting wild
