#### SUPPLEMENTARY INFORMATION:

#### Background and Purpose

The East Venetian Causeway Drawbridge across Biscayne Bay between Miami and Miami Beach, has a vertical clearance of 5.8 feet above mean high water (MHW) and 8 feet above mean low water (MLW) measured at the fenders in the closed position. On August 12, 1998, the State of Florida

Department of Transportation requested a deviation from the current operating schedule in 33 CFR 117.269. This temporary deviation was requested to allow necessary repairs to the drawbridge and relieve concerns by the Venetian Isle residents that the leafs of the drawbridge might get caught in the open-to-navigation position, thereby stranding residents on the islands while the West Venetian Drawbridge over the Intracoastal Waterway is being replaced. The District Commander has granted a temporary deviation from the operating requirements listed in 33 CFR 117.269 governing the East Venetian Causeway Bridge across Biscayne Bay in accordance with the provisions of 33 CFR 117.35(a) for the purpose of conducting repairs to the drawbridge. Under this deviation, the East Venetian Causeway Drawbridge need open only on the hour from 8 a.m. to 5 p.m., daily. At all other times, the drawbridge may remain in the closed position. The deviation is effective for a period of 60 days beginning on August 21, 1998 and ending on October 19, 1998.

Dated: August 24, 1998.

#### Drawbridge Operation Regulations; Sacramento River, Sacramento and Yolo Counties, CA, Union Pacific "I" Street Railroad Bridge

AGENCY: Coast Guard, DOT.

ACTION: Notice of temporary deviation from regulations.

**SUMMARY:** Notice is hereby given that the Coast Guard has issued a temporary deviation to the regulations governing the opening of the Union Pacific "I" Street Railroad swing bridge over the Sacramento River in Sacramento, CA. The deviation specifies that the bridge need not open for vessels from 6 a.m. Monday, September 14 through 10 p.m. Wednesday, September 16, 1998. The purpose of this deviation is to allow the Union Pacific Railroad and its contractors to perform preventative maintenance on the hydraulic system on the bridge.

**DATES:** Effective period of the deviation is 6 a.m. Monday September 14, 1998

through 10 p.m. Wednesday September 16, 1998.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Jerry Olmes, Bridge Administrator, Eleventh Coast Guard District, Building 50-6 Coast Guard Island, Alameda, CA 94501-5100, telephone (510) 437-3515.

**SUPPLEMENTARY INFORMATION:** The Coast Guard anticipates that the economic consequences of this deviation will be minimal. The Coast Guard has contacted local marine interests to determine dates when the 3-day closure would have less of an impact to the marine public. The Union Pacific Railroad initially wanted to close the bridge in late August, but a local cruise company requested the work be delayed until after Labor Day, when commercial and recreational activity is less. The Railroad agreed that while maintenance was needed, they would delay repairs until after Labor Day. With advance notice, vessel operators can plan their transits accordingly.

This deviation from the normal operating regulations in 33 CFR 117.189 is authorized in accordance with the provisions of 33 CFR 117.35.

Dated: August 21, 1998.
