

Standard 90.1. These issues were discussed at a previous public workshop on April 14 and 15, 1998. Proceedings of this workshop, including transcripts, are available for inspection in Docket No. EE-TP-98-101 at the DOE Freedom of Information Reading Room, U.S. DOE, Forrestal Building, Room 1E-190, 1000 Independence Avenue, SW, Washington, DC 20585, (202) 586-6020, between the hours of 9:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays. Transcripts may also be purchased from Neal R. Gross, Court Reporters and Transcripts, 1323 Rhode Island Ave., NW, Washington, DC 20005-3701, (202) 234-4433.

Since that time, the DOE has analyzed the comments, and the National Institute of Standards and Technology (NIST) has developed recommendations for DOE's consideration in drafting the notice of proposed rulemaking. The purpose of this public workshop is to discuss the resolution of the issues raised in the April 1998, workshop and to obtain reactions to NIST's proposals.

NIST is developing a paper entitled, "Proposed Provisions for a Rulemaking on Test Procedures for Commercial Water Heaters, Boilers, Furnaces, Air Conditioners and Heat Pumps," which will set forth approaches for DOE to consider in the Notice of Proposed Rulemaking and it explains recommended provisions. This paper will be available after September 28, 1998, and can be found on the Internet at the following URL address: [http://www.eren.doe.gov/buildings/codes\\_standards/index.htm](http://www.eren.doe.gov/buildings/codes_standards/index.htm). Hard copies can be obtained by mail from Ms. Brenda Edwards-Jones, at (202) 586-2945, or may be read at the DOE Freedom of Information Reading Room mentioned above.

At this workshop, the Department is particularly interested in receiving comments and views of interested parties concerning: (1) the ideas for resolution of the issues discussed in April and (2) provisions recommended by NIST for DOE's consideration for inclusion in the Notice of Proposed Rulemaking. The Department encourages those who wish to participate in the workshop to obtain the NIST paper and to make presentations that address its contents. Workshop participants need not limit their statements to these topics. The Department is interested in receiving views concerning other issues that participants believe would affect the test procedures or standards compliance for commercial water heaters, boilers, furnaces, air conditioners, and heat pumps.

The meeting will be conducted in an informal, conference style. A court reporter will be present to record the minutes of the meeting. There shall be no discussion of proprietary information, costs or prices, market shares, or other commercial matters regulated under antitrust law. After the meeting and period for written comments, the Department will consider the views presented in formulating a Notice of Proposed Rulemaking regarding energy efficiency test procedures and standards compliance as they relate to commercial water heaters, boilers, furnaces, air conditioners, and heat pumps.

If you would like to participate in the workshop, receive workshop materials, or be added to the DOE mailing list to receive future notices and information regarding commercial water heaters, boilers, furnaces, air conditioners, and heat pumps, please contact Ms. Brenda Edwards-Jones at (202) 586-2945.

Issued in Washington, DC, on September 4, 1998.
