BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Availability of a Habitat Conservation Plan and Receipt of an Application for an Incidental Take Permit for two Pacific Gas and Electric Company Projects, Santa Clara County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and receipt of application.

SUMMARY: The Pacific Gas and Electric Company has applied to the Fish and Wildlife Service for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The Service proposes to issue a 3-year permit to Pacific Gas and Electric that would authorize the take of the bay checkerspot butterfly (*Euphydryas editha bayensis*), federally listed as threatened, and modification of its habitat incidental to otherwise lawful activities. Such take would occur during the rewiring of the Metcalf-Edenvale 115-kilovolt transmission line and the installation of the 4th circuit on the Metcalf-Monta Vista 230-kilovolt line in Santa Clara County, California.

We request comments from the public on the permit application, which is available for review. The application

includes a Habitat Conservation Plan (Plan). The Plan describes the proposed project and the measures that the Pacific Gas and Electric Company would undertake to minimize and mitigate project impacts to the bay checkerspot butterfly.

We also request comments on our preliminary determination that the Plan qualifies as a "low-effect" Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act. We explain the basis for this determination in an Environmental Action Statement, available for public review.

DATES: Written comments should be received on or before October 15, 1998.

ADDRESSES: Send written comments to Mr. Wayne White, Field Supervisor, Fish and Wildlife Service, 3310 El Camino Avenue, Suite 130, Sacramento,
