Section 64.903 (b) requires that carriers update their cost allocation manuals annually, except that changes to the cost apportionment table and to the description of time reporting procedures must be filed at least 15 days before the carrier plans to implement the changes. The cost allocation manual is reviewed by the FCC to ensure that all costs are properly classified between regulated and nonregulated activity. Uniformity in the CAMs will help improve the joint cost allocation process. In addition, this uniformity will give the Commission greater reliability in financial data submitted by the carriers through the Automated Reporting Management Information System (ARMIS).
