

withdrawn from warehouse for consumption during the period from October 1, 1998 through September 30, 1999. I have further determined that out of this quantity of 50,000 metric tons, the quantity of 4,656 metric tons, raw value, is reserved for the importation of specialty sugars. These TRQ amounts may be allocated among supplying countries and areas by the United States Trade Representative.

I will issue Certificates of Quota Eligibility (CQEs) to allow the Philippines, Brazil, and the Dominican Republic to ship up to 25 percent of their respective initial country allocations at the low-tier tariff during each quarter of FY 1999. Australia, Guatemala, Argentina, Peru, Panama, El Salvador, Colombia, South Africa, and Nicaragua will be allowed to ship up to 50 percent of their respective initial country allocations in the first 6 months of FY 1999. Unentered allocations, during any quarter or six month period, may be entered in any subsequent period. For all other countries, CQEs corresponding to their respective country allocations may be entered at the low-tier tariff at any time during the fiscal year. If additional country allocations result from the January, March, and May blocks of the reserved TRQ quantity, they may be entered subsequent to their announcement by the United States Trade Representative.

Mexico's North American Free Trade Agreement (NAFTA) access to the U.S. market is established at 25,000 metric tons raw value. That access will be for either raw or refined sugar, but total access under the refined sugar allocation and the raw-sugar allocation is not to exceed 25,000 metric tons. Mexico's NAFTA access for either raw or refined sugar is established in Annex 703.2.

Signed at Washington, DC, on September 16, 1998.

Dan Glickman,

Secretary of Agriculture.
