BILLING CODE 6351-01-M

DEPARTMENT OF DEFENSE**Department of the Army****Final Environmental Assessment and Finding of No Significant Impact for the Disposal and Reuse of Fort Pickett, Virginia, BRAC 95**

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: In accordance with Public Law 101-510 (as amended), the Defense Base Closure and Realignment Act of 1990, the Defense Base Closure and Realignment Commission recommended the closure, except minimum essential ranges, facilities, and training areas as a Reserve Component enclave, of Fort Pickett, VA. Land the Army deemed not minimal essential was declared excess and made available for disposal and reuse.

The Final Environmental Assessment (EA) evaluated the environmental and sociological impacts of the disposal and subsequent reuse of the 3,474 acres. Alternatives examined in the EA include encumbered disposal of the property and no action. Unencumbered disposal was not evaluated since certain encumbrances exist which are either required by law or cannot be practically removed. Under the no action alternative, the Army would not dispose of the property but would maintain it in caretaker status for an indefinite period.

DATES: Interested parties are invited to review and comment on the Finding of No Significant Impact (FNSI) on or before October 22, 1998.

ADDRESSES: A copy of the Final EA and FNSI may be obtained by writing to the U.S. Army Corps of Engineers, ATTN: Mr. Richard Muller, Project Management Division, 803 Front Street, Norfolk, VA 23510-1096.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Muller at (757) 441-7767 or by facsimile at (757) 441-7546.

SUPPLEMENTARY INFORMATION: The EA addressed the environmental and socioeconomic effects associated with an action directed by the 1995 Base Closure and Realignment Commission: disposal of approximately 3,474 acres of property at Fort Pickett, Virginia. The EA also analyzed reuse of the installation by the local community, as planned by the Fort Pickett Local Reuse Authority. The Reuse Authority has prepared a reuse plan, which was the primary factor in development of the reuse scenarios analyzed in this EA. One disposal alternative (encumbered) was presented and evaluated in this environmental analysis, as are three reuse scenarios representing low, medium-low and medium intensity reuse. In addition to the proposed action, a no action alternative, with the property remaining in caretaker status, was evaluated. Other alternatives are discussed but not analyzed because they were considered infeasible. Implementation of the preferred alternative (encumbered disposal) would be expected to result in minor beneficial and minor adverse effects on several environmental conditions.

A Notice of Intent (NOI) declaring the Army's intent to prepare an EA for the disposal and reuse of Fort Pickett was published in the **Federal Register** on September 22, 1995 (60 FR 49264).

Dated: September 16, 1998.

Richard E. Newsome,

Acting Deputy Assistant Secretary of the Army, (Environment, Safety and Occupational Health), OASA, (I,L&E).
