September 18, 1998.

Take notice that on September 10, 1998, Black Marlin Pipeline Company (Black Marlin), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP98-772-000 a request pursuant to Sections 157.205 and 157.216 of the Commission's Regulations (18 CFR 157.205, 157.216) under the Natural Gas Act (NGA) for authorization to abandon by sale to Houston Pipe Line Company (HPL) certain measuring and regulating facilities in Galveston County, Texas, under Black Marlin's blanket certificate issued in Docket No. CP89-2115-000, pursuant to Section 7 of the NGA, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Black Marlin proposes to abandon the measuring and regulating facilities at two interconnections between Black Marlin and HPL (HPL Texas City and HPL Grant Avenue Stations). It is stated that both interconnections were constructed under Commission authorization in Docket No. CP84-354-000 as part of a 13-mile extension of its pipeline system. It is asserted that Black Marlin proposes to sell the facilities to HPL in response to a request from HPL. It is further asserted that HPL will continue to use the facilities as part of its distribution system to serve its gas system and that there will be no loss of service to any customer. Black Marlin states that the proposal is not prohibited by its FERC gas tariff and that it has sufficient capacity without detriment or disadvantage to its other customers.

[Docket No. RP98-402-000]

Eastern Shore Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 18, 1998.

Take notice that on September 15, 1998, Eastern Shore Natural Gas Company (Eastern Shore) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets with a proposed effective date of October 15, 1998:

First Revised Sheet No. 264
Original Sheet No. 264A
First Revised Sheet No. 278
Original Sheet No. 278A
First Revised Sheet No. 304
Original Sheet No. 304A

Eastern Shore states that the purpose of this filing is to modify certain of Eastern Shore's pro forma service agreements to provide for specific types of volume-related discounts that may be granted by Eastern Shore. By making these modifications to Eastern Shore's form of service agreements, Eastern Shore seeks to reduce the need for filing individual discount agreements as "material deviations" when such discounts are volume-related.

Eastern Shore further states its proposed tariff revisions are consistent with the Commission's clarifications regarding discount agreements set forth in "Order on Rehearing and

Clarification" issued by the Commission in Natural Gas Pipeline Company of America, 82 FERC ¶61,298 (1998) (Natural). The Commission found that Natural must file all discounts which contain material deviations from the pro forma service agreements in Natural's tariff. Natural, 82 FERC at 62,179-80. Discount agreements containing variations from the pro forma service agreement (other than those specified in Order No. 582) must be on file and approved by the Commission—either by being reflected in the pro forma agreement in the tariff or by being filed individually as non-conforming service agreements. Id. at 62,180.

Eastern Shore states that it proposes to revise three (3) of its pro forma service agreements. Eastern Shore has specified a list of options which would allow Eastern Shore and its customers to agree upon specific types of volume-related discounts pursuant to the pro forma service agreement, without the filing of individual non-conforming service agreements. This language in the pro forma service agreement allows the parties to tailor the discount to specific market and business conditions by defining discounts which apply only to specific volumes, to volumes during specific periods, of time, to volumes at specific delivery point areas, zones or geographical area, or in relation to volumes actually transported. These revisions provide Eastern Shore and its customers the ability to agree upon discounted rates which reflect conditions in specific markets. Eastern Shore believes this approach provides commercial benefits to Eastern Shore's customers and is more administratively flexible and efficient for both Eastern Shore and its customers.

Finally, Eastern Shore states that copies have been mailed to all customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the

Commission and are available for public inspection in the Public Reference Room.
