FDA regrets that it was unable to publish this notice 15 days prior to the October 8 and 9, 1998, Orthopaedic and Rehabilitation Devices Panel of the Medical Devices Advisory Committee meeting. Because the agency believes there is some urgency to bring these issues to public discussion and qualified members of the Orthopaedic and Rehabilitation Devices Panel of the Medical Devices Advisory Committee were available at this time, the Commissioner concluded that it was in

the public interest to hold this meeting even if there was not sufficient time for the customary 15-day public notice.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: September 22, 1998.

Michael A. Friedman,

Deputy Commissioner for Operations.

Fish and Wildlife Service

Notice of Availability of Final Programmatic Environmental Assessment and Draft Comprehensive Conservation Plan for Cabeza Prieta National Wildlife Refuge and Wilderness

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) has completed a Final Programmatic Environmental Assessment and associated Draft Comprehensive Conservation Plan (CCP) for the Cabeza Prieta National Wildlife Refuge and Wilderness, Ajo, Arizona. A Finding of No Significant Impact (FONSI) has been issued consequent to the issuance of the Final Programmatic Environmental Assessment (EA). The Service is furnishing this notice in compliance with Service CCP policy: (1) to advise other agencies and the public of the availability of the documents, and (2) to obtain input, comments, and suggestions with respect to the Service's proposed management objectives and strategies detailed in the draft CCP document.

Approval of the Programmatic EA constitutes the definition of appropriate management approaches leading to the achievement of the refuge's purposes and mission of the National Wildlife Refuge System. It is out of this basic approach that draft CCP objectives and strategies were developed and attached to the Programmatic EA. The proposed management changes include, but are not necessarily limited to the following approaches:

- A continuation of access to refuge lands by permit only;
- Reclamation of Childs Mountain Summit resulting in the net reduction of development footprint from 5 acres to less than 1 acre (400% reduction) as part of the Federal Aviation Administration (FAA) ARSR-4 Radar Construction project. [FAA FONSI /Record of Decision (ROD) dated Jan. 22,
