

required only to represent their status (i.e., whether small, small disadvantaged, or women-owned small businesses). Section 714(c) of the Small Business Competitiveness Demonstration Program Act requires each participating agency to collect data pertaining to the size as well as the status of the small business concern receiving any award for services in the four designated industry groups and products or services in the agencies' ten targeted industry categories. The size of the small businesses is collected in terms of the number of employees or dollar volume of sales. The number of employees is based on the average of the pay periods for the last twelve months. The volume of sales is based on the average annual gross revenue for the last three fiscal years (see FAR 19.101). The size information is collected during the solicitation process as part of the representation requirement. This data will be used to evaluate the small business impact of the Program.

The former information collection requirements set forth in section 714(b) of the Small Business Competitiveness Demonstration Program Act, pertaining to the simplified system to collect data on the participation of small business concerns as subcontractors under prime contracts for architectural and engineering (A&E) services, expired on September 30, 1997. Accordingly, this proposed reinstatement excludes that data collection requirement.

### B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average five minutes per response, including the time to gather the information and complete the solicitation provision. The annual reporting burden is estimated as follows: Respondents, 603,524; responses per respondent, 1; total annual responses, 603,524; preparation hours per response, .08333, and total response burden hours, 50,273.
