SUPPLEMENTARY INFORMATION:

I. Background

The Museum and Library Services Act, Pub. L. 104-208 enacted on September 30, 1996, authorized the IMLS to make grants to improve library and museum services. As part of its continuing efforts to ensure that all grant programs achieve their goals, the Institute has embarked on a project to evaluate all of its grant programs. This evaluation focuses on the Conservation Assessment Program. The Conservation Assessment Program (CAP) provides eligible museums with a source of general conservation survey grants. The

general conservation survey or assessment provides an overview of all of the museum's collections, as well as its environmental conditions, and policies and procedures relating to collections care. The assessment report assists the institution by:

- Providing recommendations and priorities for conservation actions, both immediate and long-term;
- Facilitating the development of long-range institutional plans for the care and preservation of the collections; and
- Serving as a fundraising tool for future conservation projects.
