Medicare Program: Changes to the Hospital Inpatient Prospective Payment Systems and Fiscal Year 1999 Rates; Corrections

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule; correction notice.

SUMMARY: In the July 31, 1998 issue of the Federal Register (63 FR 40594), we published a final rule revising the Medicare hospital inpatient prospective payment systems for operating costs and capital-related costs to implement applicable statutory requirements, including the Balanced Budget Act of 1997 (BBA), as well as changes arising from our continuing experience with the system. In addition, in the addendum to that final rule, we announced the amounts and factors for determining prospective payment rates for Medicare hospital inpatient services for operating costs and capital-related costs applicable to discharges occurring on or after October 1, 1998, and set forth rate-of-increases limits for hospitals and hospital units excluded from the prospective payment systems. This document corrects errors made in that document.

SUPPLEMENTARY INFORMATION: The July 31, 1998 final rule contained technical and typographical errors. Therefore, we are making the following corrections:

**SUMMARY:** The Bureau of Land Management (BLM) is streamlining its exchange regulations at 43 CFR group 2200 by amending §2200.0-7 of part 2200 and by removing parts 2210, 2240, 2250, and 2270. Section 2200.0-7 states that, apart from the Federal Land Policy and Management Act (FLPMA), the Secretary of the Interior administers various statutes authorizing land exchanges, and that those exchanges may involve BLM-managed lands. If BLM-managed lands are involved, the other statutes will prevail over the regulations in part 2200 to the extent they are inconsistent with the regulations in part 2200. BLM is simultaneously removing parts 2210, 2240, 2250, and 2270 because the regulations in those parts largely restate the substance of the exchange statutes based on the various statutes involved in these exchanges. In addition, BLM is amending the regulations at part 2200 to the extent that the terms of the statute and the part 2200 regulations conflict. This can be accomplished without significantly affecting the rights of the United States, BLM's customers, or the public at large. This rule finalizes a proposed rule which was published on December 6, 1996, in the Federal Register at 61 FR 64658.

**II. Final Rule as Adopted**

The parts which this rule removes, 43 CFR parts 2210, 2240, 2250, and 2270, are almost entirely devoted to repeating statutory provisions. To the extent that they are duplicative, these regulations serve only to provide information that can be found in the statutes themselves. Furthermore, the few provisions in these parts which go beyond the statutes are provisions which can and should be removed.

For example, removing section 2240.0-3(f) deletes: (1) the requirement that States, political subdivisions thereof, or interested parties requesting public hearings to consider an exchange do so in writing; and (2) the definitions of National Park System and miscellaneous areas. These provisions constitute substance beyond that already contained in the Act of July 15, 1968, 16 U.S.C. 4601-22. However, BLM has determined that deleting these provisions does not meaningfully alter its administration of the Act's exchange provisions or significantly affect the rights of the United States or the public. BLM believes the benefits of streamlining and deleting unnecessary material such as part 2240 outweigh the impact of these minor substantive changes.

Next, removing part 2250 eliminates regulatory language stating that lands eligible for exchange under the Act of August 22, 1957, 16 U.S.C. 696, include federally owned property in Florida classified by the Secretary as suitable for exchange or disposal. In fact, the statute requires that lands be "federally owned property in the State of Florida under [the Secretary of the Interior's] jurisdiction . . . ." Therefore, any suggestion by the existing 43 CFR 2250.0-3(c) that the land need only be Federal land in Florida, regardless of the Secretary's jurisdiction, contradicts the law. Removing part 2250 will eliminate this confusion and will delete otherwise unnecessary language.

Similarly, removing part 2270 will eliminate a few minor inconsistencies with the governing statutes, but in each case our intention is that these deletions not have any substantive effect. For example, section 2271.0-3(a) adds the word "approximately" to the requirement that exchanges of Indian Reservation land under the Act of April 21, 1904, 43 U.S.C. 149, must be "equal" in area and value. In this particular statutory context, BLM has generally interpreted the word "equal" to mean "approximately equal" to allow the exchanging parties some flexibility in making the exchange as close to equal as is reasonably possible, without risking failure over negligible differences. Although removing part 2270 will eliminate this interpretation from the CFR, BLM advises that it will continue to interpret the term "equal" in this way. BLM also advises that eliminating part 2270 will cause several other minor changes, but none that involve any significant substance. To sum up, BL1M believes that there are no variances between the statute and the regulations being removed which are significant enough to justify continued publication of these otherwise redundant and unnecessary regulations.

In place of these redundant parts, this rule amends 43 CFR 2200.0-7(b) to include a general provision rather than a reference to the deleted parts. The amended section informs the public that the rules in part 2200 will apply to all exchanges involving BLM-managed lands unless a statute authorizes an exchange to be conducted under different requirements or procedures. As amended, the regulation gives several examples of land exchanges, such as National Park System and National Wildlife Refuge System exchanges, which may require complying with...
