SUPPLEMENTARY INFORMATION:

On June 25, 1996, FSIS published a final rule, "Pathogen Reduction: Hazard

Analysis and Critical Control Point (HACCP) Systems," (61 FR 38806). The rule established a HACCP implementation schedule for establishments based on their size. Large plants began implementing HACCP on January 26, 1998. Small plants have a scheduled implementation date of January 25, 1999, and very small plants are required to implement HACCP by January 25, 2000.

Since publication of its final HACCP rule, FSIS has held a series of public meetings to facilitate implementation of HACCP plans, especially by small and very small plants. The Agency also has provided extensive information and technical assistance that would be helpful to plant managers in

development of HACCP plans. FSIS also has developed and distributed generic HACCP models and guidance materials specifically to aid small plant managers.

The upcoming meetings will discuss small plant initiatives, including contacts and a coordinators assistance network, small plant demonstration projects, plant sponsorship, and land grant university workshops. A panel will address the key elements of implementation, and there will be an opportunity to ask questions and seek additional information. All of the meetings will be held from 9:00 a.m. to 1:00 p.m. The following is a list of locations and dates for each of the meetings scheduled from October to December 1998.¹
