

thus negatively impacting the availability of Medicaid expenditures to hospitals, especially IMDs.

While the statute mandates the reductions in DSH payments, we do not believe that this notice will have a significant economic impact on a substantial number of small entities because it reflects no new policies or procedures, and should have an overall positive impact on payments to DSHs by informing States of the extent to which DSH payments may be increased without violating statutory limitations.

The Unfunded Mandate Reform Act of 1995 requires (in section 202) that agencies prepare an assessment of anticipated costs and benefits for any rule that may result in an annual expenditure by State, local, and tribal governments, in the aggregate, or by both the private sector, of \$100 million. The notice has no consequential effect on State, local, tribal governments, or the private sector and will not create an unfunded mandate.

In accordance with the provisions of Executive Order 12866, this notice was reviewed by the Office of Management and Budget.
