ACTION: Final rule; corrections.

SUMMARY: The Federal Railroad Administration published in the **Federal Register** of June 22, 1998 (63 FR 33992), a final rule to revise the Track Safety Standards contained in 49 CFR part 213. On August 28, 1998, FRA published a notice of corrections to correct several inadvertent errors which appeared in the final rule (63 FR 45959). This correction notice corrects additional errors since found in the final rule.

DATES: Effective on October 8, 1998.

Atlantic Tuna Fisheries; Atlantic Bluefin Tuna; Closure

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: General category closure.

SUMMARY: NMFS has determined that the 1998 Atlantic bluefin tuna (BFT) General category subquota for the October-December period will be attained by October 5, 1998. Therefore, General category fishery for October-December will be closed effective 11:30 p.m. on October 5, 1998. This action is being taken to prevent overharvest of the adjusted subquota of 116 metric tons (mt) for the October-December period.

DATES: Effective 11:30 p.m. local time on October 5, 1998, through December 31, 1998.

FOR FURTHER INFORMATION CONTACT:

Sarah McLaughlin, 301-713-2347, or Pat Scida, 978-281-9260.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*) governing the harvest of BFT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 285. Section 285.22 subdivides the U.S. quota recommended by the International Commission for the Conservation of Atlantic Tunas among the various domestic fishing categories.

General Category Closure

NMFS is required, under § 285.20(b)(1), to monitor the catch and landing statistics and, on the basis of these statistics, to project a date when the catch of BFT will equal the quota and publish a **Federal Register** announcement to close the applicable fishery.

Implementing regulations for the Atlantic tuna fisheries at 50 CFR 285.22 provide for a subquota of 65 mt of large medium and giant BFT to be harvested from the regulatory area by vessels permitted in the General category during the period beginning October 1 and ending December 31. Due to a total underharvest of 1 mt in the June-August and September period subquotas and to the transfer of 50 mt from other categories (10 mt from the Reserve and 40 mt from the Incidental Longline South quota), the October-December period subquota was adjusted to 116 mt (63 FR 51855, September 29, 1998). Based on reported catch and effort, NMFS projects that this revised subquota will be reached by October 5, 1998. Therefore, fishing for, retaining, possessing, or landing large medium or giant BFT by vessels in the General category must cease at 11:30 p.m. local time October 5, 1998. If, after tallying the landings following the closure, NMFS determines that a substantial amount of quota remains, NMFS may reopen the General category fishery as necessary to allow full harvest of the adjusted October-December subquota.

General category permit holders may tag and release BFT while the General category is closed, subject to the requirements of the tag and release program at 50 CFR 285.27.

The intent of this closure is to prevent overharvest of the October-December period subquota established for the General category. NMFS will announce the opening date of the New York Bight fishery through a separate **Federal Register** notice.
