Office of the Assistant Secretary—Water and Science; Central Utah Project Completion Act; Notice of Intent To Prepare a Final Supplement to the Final Environmental Impact Statement for the Diamond Fork System, Bonneville Unit, Central Utah Project

AGENCIES: Department of the Interior (Department), Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission), and Central Utah Water Conservancy District (District) are the joint-lead agencies.

ACTION: Notice of intent to prepare a Final Supplement to the Final Environmental Impact Statement (EIS) for the Diamond Fork System, Bonneville Unit, Central Utah Project.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), as amended, the Department, Mitigation Commission, and the District are preparing a Final Supplement to the Diamond Fork System Final EIS of the Bonneville Unit, Central Utah Project.

In accordance with NEPA, the Spanish Fork Canyon—Nephi Irrigation System (SFN) Draft EIS, which also included a "Diamond Fork Tunnel Alternative" as part of the Diamond Fork System, was filed with the Environmental Protection Agency (EPA) and released for public review on March 31, 1998. Twenty-six comment letters were received during the comment period, which ended June 15, 1998; and 58 oral comments were given during two public hearings. Because of significant issues raised in the comment letters from the Strawberry Water Users Association, the State of Utah, and EPA regarding the SFN System (i.e. the purpose and need for the SFN System and water quality issues in Utah Lake) planning on the SFN System was discontinued. The joint-lead agencies have decided to proceed with a final supplement to the Diamond Fork Final EIS based on the following facts: (1) the serious issues raised during the SFN NEPA process are directly tied to the SFN System and do not materially affect the Diamond Fork Tunnel Alternative; (2) the resolution of these issues appears to be of such a magnitude that a significant delay in proceeding with a combined NEPA compliance document (for SFN and Diamond Fork) would be expected; and (3) the Diamond Fork System is necessary and common to any plan for additional use of Bonneville Unit water stored in Strawberry Reservoir and utilized along the Wasatch Front. A Final Supplement to the Diamond Fork Final EIS will be prepared and is expected to be filed with EPA in early 1999.

This action complies with the Department Manual (516 DM 4.5B) which states that "a bureau and/or the

appropriate program Assistant Secretary will consult with the Office of Environmental Project Review and the Office of the Solicitor prior to proposing to CEQ to prepare a final supplement without preparing an intervening draft." Meetings were held with Office of Environmental Policy and Compliance, Office of the Solicitor, and the Council on Environmental Quality (CEQ), which resulted in their approval of the preparation of the Final Supplement to the Diamond Fork System Final EIS.
