

The fishery for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the GOA was closed to directed fishing under § 679.20(d)(1)(iii) on March 10, 1998, (63 FR 12416 March 13, 1998) and opened to directed fishing on October 5, 1998 (63 FR 52986) in order to fully utilize the TAC.

The Regional Administrator has establishing a directed fishing allowance of 37,448 mt, and is setting aside the remaining 100 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately to prevent overharvesting the 1998 TAC of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the GOA. A delay in the effective date is impracticable and contrary to the public interest, and further delay would only result in overharvest. NMFS finds for good cause that the implementation of this action should not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 8, 1998.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod in the Western Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 1998 total allowable catch (TAC) of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 11, 1998, until 2400 hrs, A.l.t., December 31, 1998.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 1998 TAC of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area was established as 16,682 metric tons (mt) by the Final 1998 Harvest Specifications of Groundfish for the GOA (63 FR 12027, March 12, 1998). See § 679.20(c)(3). On April 16, 1998 (63 FR 18848) it was increased by an apportionment of reserves to 20,853 mt.

The fishery for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA was closed to directed fishing under § 679.20(d)(1)(iii) on March 3, 1998, (63 FR 11160, March 6, 1998) and opened to directed fishing on October 5, 1998,

(63 FR 52985) in order to fully utilize the TAC.

The Regional Administrator has establishing a directed fishing allowance of 20,753 mt, and is setting aside the remaining 100 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification
