

numbered. Statements should include the Name, Organizational Affiliation, Address, and Telephone number of the author(s). Written statements for the record will be included in minutes of the meeting immediately following the receipt of the written statement, unless the statement is received within three weeks of the meeting. Under this circumstance, the written statement will be included with the minutes of the following meeting. Written statements for the record should be submitted to the DFE.

Inquiries may be addressed to the DFE, Dr. Dwight E. Adams, Chief, Scientific Analysis Section, Laboratory Division—Room 3266, Federal Bureau of Investigation, 935 Pennsylvania Avenue, N.W., Washington, DC 20535-0001, (202) 324-4416, FAX (202) 324-1462.

Dated: October 21, 1998.

**Dwight E. Adams,**

*Chief, Scientific Analysis Section Federal Bureau of Investigation.*

## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Job Training Partnership Act: Native American Employment and Training Council

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice of meeting.

**SUMMARY:** Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, and section 401(k)(1) of the Job Training Partnership Act, as amended [29 U.S.C. 1671(k)(1)], notice is hereby given of a meeting of the Native American Employment and Training Council.

**TIME AND DATE:** The meeting will begin at 9:00 a.m. EST on Thursday, November 12, 1998, and continue until 5:00 p.m. EST that day. The meeting will reconvene at 9:00 a.m. EST on Friday, November 13, 1998, and adjourn at 4:00 p.m. EST on that day. The period from 3:00 p.m. to 5:00 p.m. EST on November 12 will be reserved for participation and presentation by members of the public.

**PLACE:** Rooms S-4215 A, B, & C of the Frances Perkins Building, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC 20210.

**STATUS:** The meeting will be open to the public.

**MATTERS TO BE CONSIDERED:** The agenda will focus on the following topics: (1) status of the Program Year 1998 Partnership Plan; (2) progress of the evaluation of the section 401 program; (3) progress of the performance measures/standards workgroup; (4) status of technical assistance and training provision for Program Year 1998 and 1999; (5) status of FY 1999 Indian and Native American Welfare-to-Work program implementation; and (6) status of pending implementation of the Workforce Investment Act, including a report on the progress of the Regulations Work Group.

**FOR FURTHER INFORMATION CONTACT:** Ms. Anna W. Goddard, Director, Office of National Programs, Employment and Training Administration, U.S. Department of Labor, Room N-4641, 200 Constitution Avenue, NW, Washington, DC 20210. Telephone: (202) 219-5500 ext 122 (VOICE) or (202) 326-2577 (TDD) (these are not toll-free numbers).

Signed at Washington, DC, this 21st day of October, 1998.

**Anna W. Goddard,**

*Director, Office of National Programs.*

## NATIONAL FOUNDATION FOR THE ARTS AND HUMANITIES

### Institute of Museum and Library Services, Office of Library Services: Submission for OMB Review, Comment Request; State Grants Annual Report

**AGENCY:** Institute of Museum and Library Services, NFAH.

**ACTION:** Notice.

**SUMMARY:** The Institute of Museum Services has submitted the following public information request to the Office of Management and Budget for review and approval in accordance with the Paperwork Reduction Act of 1995 (P.L. 104-13, 44 U.S.C. Chapter 35) Currently, the Institute of Museum and Library Services is soliciting comment concerning a new collection entitled, State Grants Annual Report. A copy of this proposed form, with applicable supporting documentation, may be obtained by calling the Institute of Museum and Library Services, Director of State Program, Director, Jane Heiser (202) 606-5395. Individuals who use a telecommunications device for the deaf (TTY/TDD) may call (202) 606-8636.

Comments should be sent to Office of Information and Regulatory Affairs,

Attn.: OMB Desk Officer for Education, Office of Management and Budget, Room 10235, Washington, DC 20503 (202) 395-7316), by March 27, 1998.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Background:** Public Law 104-208 enacted on September 30, 1996 contains the Library Services and Technology Act, a reauthorization and refocusing of federal library programs. This legislation provides that [The State plan shall] provide assurances satisfactory to the Director that such agency will make such reports, in such form and containing such information, as the Director may reasonably require to carry out this subchapter and to determine the extent to which fund provided under this subchapter have been effective in carrying out the purposes of this subchapter. The Act describes the following purposes.

- establish or enhance electronic linkages among or between libraries electronically link libraries with educational, social or information services; assist libraries in accessing information through electronic networks;
- encourage libraries in different areas, and encourage different types of libraries, to establish consortia and share resources; or
- pay costs for libraries to acquire or share computer systems and telecommunications technologies; and
- target library and information services to persons having difficulty using a library and to underserved urban and rural communities, including children (from birth through age 17) from families and incomes below the poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section

673(2) applicable to family size involved.

*Type of Review:* New collection.

*Agency:* Institute of Museum and Library Services.

*Title:* State Grant Annual Report.

*OMB Number:* N/A

*Affected Publics:* States and entities.

*Total Respondents:* 59.

*Frequency:* annually.

*Total Responses:* 59.

*Average Time per Response:* 2 hours.

*Estimated Total Burden Hours:* 118.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

**FOR FURTHER INFORMATION CONTACT:**

Mamie Bittner, Director Public and Legislative Affairs, Institute of Museum and Library Services, 1100 Pennsylvania Ave. NW., Washington, DC 20506.

Dated: October 21, 1998.

**Mamie Bittner,**

*Director Public and Legislative Affairs.*

BILLING CODE 7036-01-M

**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-317 and 50-318]

**Baltimore Gas and Electric Co., Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR-53 and DPR-69 issued to Baltimore Gas and Electric Company (the licensee) for operation of the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 located in Calvert County, Maryland.

The proposed amendment revises Technical Specification (TS) 3.3.1, "Reactor Protective System (RPS) Instrumentation—Operating," and TS 3.3.2, "Reactor Protective System (RPS) Instrumentation—Shutdown," to clarify an inconsistency between the TS wording and the design bases as described in the TS Bases and the Updated Final Safety Analysis Report (UFSAR). Specifically, the proposed change replaces the operating bypass input process variable, Thermal Power, in Footnotes (a), (b), and (d) of Table 3.3.1-1 and in the Note to Limiting Condition for Operation (LCO) 3.3.2 with Nuclear Instrument (NI) Power. In addition, it clarifies Footnote (e) of Table 3.3.1-1 by indicating the input

process variable as "NUCLEAR INSTRUMENT POWER." Footnotes (a), (b), (d), (e), and the LCO Note describe operating bypasses for RPS Trip Functions Rate of Change of Power—High, Reactor Coolant Flow—Low, Axial Power Distribution—High, Thermal Margin/Low Pressure, Asymmetric Steam Generator Transient, and Loss of Load.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Would not involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed change to Technical Specifications 3.3.1 and 3.3.2 does not adversely impact structure, system, or component design or operation in a manner that would result in a change in the frequency of occurrence of accident initiation. The reactor trip bypass and automatic enable functions are not accident initiators. Consequently, the proposed Technical Specification change will not significantly increase the probability of accidents previously evaluated. Clarifying the input process variable of the operating bypasses and automatic bypass removals of the affected reactor trips does not alter the setpoint nor the manner of operation of the operating bypasses and automatic bypass removals.

Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Would not create the possibility of a new or different type of accident from any accident previously evaluated.

No new or different accidents result from clarifying the input process variable of the operating bypasses and automatic bypass removals of the affected reactor trips. The results of previously performed accident analyses remain valid.

Therefore, the proposed change does not create the possibility of a new or different

type of accident from any accident previously evaluated.

3. Would not involve a significant reduction in a margin of safety.

The proposed change does not alter the setpoint nor the manner of operation of the operating bypasses and automatic bypass removals of the affected reactor trips. The change merely replaces the identification of the input process variable with the appropriate identification of power.

Therefore, this proposed modification does not significantly reduce the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC.
