Columbia Gas Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

October 21, 1998

Take notice that on October 14, 1998, Columbia Gas Transmission Corporation (Columbia) tendered for filing to become part of its FERC Gas Tariff, Second Revised Volume No. 1, the tariff sheets listed on Appendix A to the filing, with a proposed effective date of November 16, 1998.

Columbia proposes to establish Rate Schedule PAL, under which interruptible parking and lending

services would be performed, in order to provide its customers with additional flexibility to manage their natural gas supply portfolios and transportation agreements. Proposed Rate Schedule PAL is closely modeled after the parking and lending services already authorized by the Commission. The proposed parking and lending services will allow Columbia's customers to park or receive loaned gas at agreed upon points of service. Columbia states that Rate Schedule PAL services are optional and have the lowest scheduling priority.

Columbia states that copies of its filing have been mailed to all firm customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
