

air quality data is available to warrant such revisions. This revision proposes to establish the area as attainment for carbon monoxide and require the state to implement their 10 year maintenance plan. In addition, EPA is proposing to approve the 1993 periodic emissions inventory for CO emissions. In the final rules portion of this **Federal Register**, EPA is approving the redesignation request as direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposal. If EPA receives adverse comments, the direct final rule will be withdrawn in a timely manner and all public comments received will be addressed in a subsequent final rule based on this proposal. EPA will not institute a second comment period on this rule. Any parties interested in commenting on this rule should do so at this time.

DATES: Comments must be received on or before December 2, 1998.

Designation of Medically Underserved Populations and Health Professional Shortage Areas

AGENCY: Health Resources and Services Administration, DHHS.

ACTION: Proposed rules; extension of public comment period.

SUMMARY: This action extends for 60 days the period for public comment on the proposed rules published in the **Federal Register** (63 FR 46538-46555) on September 1, 1998, which would revise the methodology and procedures for designating medically underserved populations and health professional shortage areas. All other information remains unchanged. Because these designations affect numerous areas and providers and because the potential impact of the proposed rules is difficult to ascertain in some cases due to the technical nature of the calculations involved, the agency has decided to extend the period for public comment to enable commenters to provide more thorough and helpful comments.

DATES: Comments on these proposed rules are invited, and, to be considered, must be submitted on or before January 4, 1999.

ADDRESSES: Comments should be submitted in writing to: Office of Program and Policy Development, Bureau of Primary Health Care, 7th Floor, 4350 East-West Highway, Bethesda, MD 20814.

Limited Service Domestic Voyage Load Lines for River Barges on Lake Michigan

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to allow certain unmanned dry cargo river barges to be exempt from the normal Great Lakes load line requirements to operate on Lake Michigan. Instead, these river barges would need to obtain a limited domestic service load line for two specific routes (between Chicago, Illinois and Milwaukee, Wisconsin; and between Chicago and Muskegon, Michigan). This proposed rule will allow certain non-hazardous cargoes originating at inland river ports to be directly transported as far as Milwaukee and Muskegon by river barge, thereby realizing the benefits of the relatively low cost-per-ton-mile of river barge transportation.

DATES: Comments must reach the Coast Guard on or before January 4, 1999.

ADDRESSES: You may mail comments to the Docket Management Facility, (USCG 1998-4623), U.S. Department of Transportation, Room PL-401, 400 Seventh Street SW, Washington, DC 20593-001, or deliver them to room PL-401, on the Plaza Level of the Nassif Building at the same address, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-267-1477.
