patient when the patient is admitted to care when critically ill and loss of capacity may be imminent and the patient is not physically able to sign an advance directive form, or the appropriate form is not readily available.

The proposed rule asserts that a patient’s specific instructions must be followed unless contrary to VA policy. The proposed rule also states that a patient who has decision-making capacity may revoke an Advance Directive or instructions in a critical situation at any time by using any means expressing the intent to revoke.

The Secretary hereby certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. The rule will affect only individuals and will not directly affect any small entities. Therefore, pursuant to 5 U.S.C. 605(b), this rule is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

PART 17—MEDICAL

1. The authority citation for part 17 continues to read as follows:

Authority: 38 U.S.C. 501, 1721, unless otherwise noted.

2. In § 17.32, the section heading is revised, paragraph (a) is amended by adding a new definition, and paragraph (h) is added immediately following paragraph (g)(4), to read as follows:

§ 17.32 Informed consent and advance healthcare planning.

(a) * * *

Advance directive. Specific written statements made by a patient who has decision-making capacity regarding future healthcare decisions in one of the following:

(i) VA Living Will. A written statement made by a patient on an authorized VA form which sets forth the patient’s wishes regarding the patient’s healthcare treatment preferences including the withholding and withdrawal of life-sustaining treatment.

(iii) State-Authorized Advance Directive. A Non-VA Living Will, Durable Power of Attorney for Health Care, or other advance healthcare planning document, the validity of which is determined pursuant to the applicable state law.

* * * * *

(h) Advance healthcare planning. Subject to the provisions of paragraphs (h)(1) through (h)(4) of this section, VA will follow the wishes of a patient expressed in an Advance Directive when the attending physician determines and documents in the patient’s medical record that the patient lacks decision-making capacity and is not expected to regain it.

(1) Witnesses. A VA Living Will or a VA Durable Power of Attorney for Health Care must be signed by the patient in the presence of two witnesses. Neither witness may be entitled to, or a claimant against, any portion of the patient’s estate; or be financially responsible for the patient’s care. Also, neither witness may be employed by the VA facility in which the patient is being treated; except that when other witnesses are not reasonably available, employees of the Chaplain Service, Psychology Service, Social Work Service, or nonclinical employees (e.g., Medical Administration Service, Voluntary Service, or Environmental Management Service) may serve as witnesses. Witnesses are attesting only to the fact that they saw the patient sign the form.

(2) Instructions in critical situations. VA will follow the verbal or non-verbal instructions of a patient when the patient is admitted to care when critically ill and loss of capacity may be imminent and the patient is not physically able to sign an advance directive form, or the appropriate form is not readily available. The patient’s instructions must have been expressed to at least two members of the healthcare team. The substance of the patient’s instructions must be recorded in a progress note in the patient’s medical record and must be co-signed by both members of the healthcare team who were present and can attest to the wishes expressed by the patient. These instructions will be given effect only if the patient loses decision-making capacity during the presenting situation. If the patient regains decision-making capacity, these instructions will not be given effect for future treatment decisions.

(3) Revocation. A patient who has decision-making capacity may revoke an Advance Directive or instructions in a critical situation at any time by using any means expressing the intent to revoke.

(4) VA Policy and Disputes. Neither the treatment team nor surrogate may override a patient’s specific instructions in an Advance Directive or in instructions in critical situations; except that those portions of an Advance Directive or instructions given in a critical situation that are not consistent with VA policy will not be given effect.

RIN 2115–AF38

Limited Service Domestic Voyage Load Lines for River Barges on Lake Michigan

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to allow certain unmanned dry cargo river barges to be exempt from the normal Great Lakes load line requirements to operate on Lake Michigan. Instead, these river barges would need to obtain a limited domestic service load line for two specific routes between Chicago, Illinois and Milwaukee, Wisconsin; and between Chicago and Muskegon, Michigan. This proposed rule will allow certain non-hazardous cargoes originating at inland river ports to be directly transported as far as Milwaukee and Muskegon by river barge, thereby realizing the benefits of the relatively low cost-per-ton-mile of river barge transportation.
