BILLING CODE 6560-50-F

**ENVIRONMENTAL PROTECTION
AGENCY**

[FRL-6185-6]

**New York Marine Sanitation Device
Standard; Receipt of Petition and
Tentative Determination**

Notice is hereby given that a petition was received from the State of New York on June 2, 1998 requesting a determination by the Regional Administrator, Environmental Protection Agency (EPA), pursuant to Section 312(f) of Public Law 92-500, as amended by Public Law 95-217 and Public Law 100-4 (the Clean Water Act), that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the harbors and creeks of the Peconic Estuary from the Sag Harbor Village Line to Montauk Point, East Hampton, New York. The harbors and creeks included in this tentative determination are Northwest Creek, Three Mile Harbor, Hog Creek, Accabonac Harbor, Napeague Harbor and Lake Montauk.

This petition was made by the New York State Department of Environmental Conservation (NYSDEC) in cooperation with the New York State Department of State and the Town of East Hampton. The State of New York has certified that greater protection of the surface water in the harbors and creeks of the Peconic Estuary in the Town of East Hampton is required than the applicable federal standards provide. Upon receipt of an affirmative determination in response to this petition, NYSDEC would completely

prohibit the discharge of sewage, whether treated or not, from any vessel in Northwest Creek, Three Mile Harbor, Hog Creek, Accabonac Harbor, Napeague Harbor and Lake Montauk in accordance with Section 312(f)(3) of the Clean Water Act and 40 CFR 140.4(a). This prohibition would be part of a comprehensive approach to water quality management aimed at preventing water quality impairments and improving overall water quality in the harbors and creeks. This designation is part of a wider effort at controlling non-point source pollution including problems associated with stormwater runoff and residential septic systems.

The proposed No Discharge Area (NDA) lies within the Town of East Hampton, Suffolk County, New York. The boundaries of the Proposed NDAs will be the mouth of each individual creek or harbor and all the waters within the following harbors and creeks:

Name of harbor or creek	Latitude	Longitude
Northwest Creek	N 41° 00.8' ..	W 72° 15.3'
Three Mile Harbor	N 41° 031" ...	W 72° 11.3'
Hog Creek	N 41° 03.1' ..	W 72° 08.2'
Accabonac Harbor	N 41° 01.5' ..	W 72° 18.2'
Napeague Harbor—west	N 41° 00.8' ..	W 72° 03.7'
Napeague Harbor—east	N 41° 01.1' ..	W 72° 03.3'
Lake Montauk	N 41° 04.7' ..	W 72° 56.4'

Information submitted by the State of New York and the Town East Hampton shows that there are ten existing pump-out facilities available and that three pumpout boats service vessels in the proposed NDA. Harbor Marina, located in Three Mile Harbor, operates a portable pumpout. The pumpouts are available from 8:30 a.m. to 4:30 p.m. daily and the fee is \$25. Town Dock—Gann Road, located in Three Mile Harbor, operates a stationary pumpout and a portable pumpout. The pumpouts, which are free to use, are available self-

service 24 hours a day and from 8:00 a.m. to 4:00 p.m. with an attendant on duty. Maidstone Harbor Marina, located in Three Mile Harbor, operates a stationary pumpout. The pumpout is available on weekends from May 1 through October 31 from 9:00 a.m. to 5:00 p.m. and the fee is \$20. East Hampton Point Marina, located in Three Mile Harbor, operates a portable pumpout. The pumpout is available from 8:30 a.m. to 4:00 p.m. from May through October. The fee is \$5. Shagwong Marina, located in Three Mile Harbor, operates a portable pumpout. The pumpout is available from 9:00 a.m. to 5:00 p.m. daily and the fee is \$5. Town Dock—Star Island, located in Montauk Harbor, operates two stationary pumpout facilities. These facilities are available on a self-service basis 24 hours a day and operated by an attendant from 8:00 a.m. through 4:00 p.m. Montauk Sportsman's Dock, located in Montauk, operates a portable pumpout. The pumpout is available from 9:00 a.m. through 4:00 p.m. daily. Gone Fishing Marina, located in Montauk Harbor, operates a portable pumpout unit. The unit is available from 8:00 a.m. through 5:00 p.m. and the fee is \$5. Darenberg Marine operates two pumpout boats in Three Mile Harbor and Lake Montauk, and will serve any harbor on an as-needed basis. Darenberg Marine can be reached at 329-2739 or VHF channel 73. The boat located on Three Mile Harbor operates from 8:00 a.m. through 2:00 p.m. on Tuesday and Wednesday, and from 7:00 a.m. through 12:00 p.m. Friday, Saturday and Sunday. The boat located on Lake Montauk operates from 2:30 p.m. through 7:00 p.m. on Tuesday and Wednesday, and from 12:30 p.m. through 7:00 p.m. Friday, Saturday and Sunday. Darenberg Marine charges a fee of \$10 per boat. The Town of East Hampton operates a pumpout boat in Three Mile Harbor and does not charge for the service. East Hampton operates the boat 40 hours per week and can be contacted at 267-8688 or VHF Channel 73.

Draft restrictions at three of the marinas would exclude a certain number of the larger vessels from accessing the pumpouts at these three marinas. Montauk Sportsman's Dock has a water depth of 6 feet; it is estimated that 5% of the vessels would be excluded. Captain's Cove Marina has a water depth of 5 feet; it is estimated that 10% of the vessels would be excluded. Gone Fishing Marina has a water depth of 6 feet; it is estimated that 5% of the vessels would be excluded. For these excluded vessels, there are seven other pumpouts and three pumpout boats available for their use.

Vessel waste generated from the pump-out facilities operated by the Town of East Hampton is conveyed to a storage tank at the municipal scavenger waste treatment plant. The waste is hauled from the scavenger plant to the Bergen Point Wastewater Treatment Plant. With two exceptions, the other marinas empty their pumpouts into large storage tanks ranging in size from 500 gallons to 2,376 gallons. A certified hauler collects, transports and disposes of the sewage in accordance with all Federal, State and local laws. The two exceptions are Harbor Marina, which uses an on-site Bio-Robi septic system, and Captain's Cove Marina, which does not have a pumpout facility and instead uses a certified waste hauler to pumpout a vessel on request.

According to the petition, the slip and mooring capacity for each harbor or creek is as follows:

Name of harbor or creek	Number of slips/moorings/docks
Northwest Creek	21
Three Mile Harbor	1067
Accabonac Harbor	56
Hog Creek	195
Napeague Harbor	20
Lake Montauk	1274
Total	2577

The New York State Department of State conducted a survey of recreational vessels using aerial photography during August 1995 for the New York State Clean Vessel Act Plan. Analysis of the photographs provided information on the total numbers of vessels by water body. Data indicates the following peak season vessel population in the proposed NDAs in East Hampton:

Name of harbor or creek	Number of vessels
Northwest Creek	No data available
Three Mile Harbor	734
Accabonac Harbor	38
Hog Creek	No data available
Napeague Harbor	56

Name of harbor or creek	Number of vessels
Lake Montauk	883
Total	1711

Information regarding vessel population based on length shows that 63% of the boats are less than 40 feet and 37% of the vessels are 40 feet or greater in length. These percentages are based on a survey of overnight and long term occupancy and omitted marinas with recreational small crafts. Based on the number and size of boats, and using various methods to estimate the number of holding tanks, it is estimated that 5 to 8 pumpouts are needed to service the vessel population in the proposed NDAs. Currently, ten pumpouts and three pumpout boats exist in the proposed NDAs.

The EPA hereby makes a *tentative affirmative determination* that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for Northwest Creek, Three Mile Harbor, Hog Creek, Accabonac Harbor, Napeague Harbor and Lake Montauk in the Town of East Hampton, New York. A final determination on this matter will be made following the 30 day period for public comment. A final affirmative determination would result in a New York State prohibition of any sewage discharges from vessels in Northwest Creek, Three Mile Harbor, Hog Creek, Accabonac Harbor, Napeague Harbor and Lake Montauk.

Comments and views regarding this petition and EPA's tentative determination may be filed on or before December 7, 1998. Comments or requests for information or copies of the applicant's petition should be addressed to Walter E. Andrews, U.S. Environmental Protection Agency, Region II, Water Programs Branch, 290 Broadway, 24th Floor, New York, New York, 10007-1866. Telephone: (212) 637-3880.

Dated: October 21, 1998.

Jeanne Fox,
Regional Administrator, Region II.

FEDERAL MARITIME COMMISSION

Request for Additional Information

Agreement No.: 203-011474-002.
Title: The CSAV/CCNI Car Carrier Agreement.

Parties: Compania Sud Americana de Vapores S.A. Compania Chilleana de Navegacion Interoceanica S.A.

Synopsis: The Federal Maritime Commission hereby gives notice, pursuant to section 6(d) of the Shipping Act of 1984, 46 U.S.C. app. §§ 1701 *et seq.*, that it has requested the agreement parties to submit additional information regarding their agreement. Further information is necessary so the Commission can determine the impact of the proposed agreement modification. This action prevents the agreement from becoming effective as originally scheduled.

By Order of the Federal Maritime Commission.

Dated: October 30, 1998.

Ronald D. Murphy,
Assistant Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Advisory Committee, NCEH Meeting

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) announces the following meeting:

Name: Advisory Committee to the Director, National Center for Environmental Health.

Times and Dates: 10 a.m.-5:15 p.m., November 23, 1998; 8:30 a.m.-3:30 p.m., November 24, 1998.

Place: CDC National Center for Environmental Health, Building 102, Room 2201A/B, 4770 Buford Highway N.E., Chamblee, Georgia, telephone 770/488-7020.

Status: Open to the public, limited only by space available. The meeting room will accommodate approximately 19 Committee members and presenters, plus 20 observers.

Matters To Be Discussed: The Committee will provide advice on environmental public health problems that potentially pose the greatest risks to human health and may not be receiving adequate attention; the primary prevention of birth defects and developmental and other disabilities; the prevention of secondary conditions in persons with a primary disability; and the research agenda needed to improve the science base relative to human health effects and environmental exposures and that will ultimately provide sound human health data for policy and decision-making. The Committee will also review NCEH's 1998-2002 Strategic Plan.

Persons wishing to make written or oral comments at the meeting should notify the contact person in writing or by telephone no later than close of business November 18, 1998.
