Foreign-Trade Zone 8—Toledo, OH, Redesignation of Foreign-Trade Subzone 8F

Based on a request by the Toledo-Lucas County Port Authority, grantee of FTZ 8, for a minor modification of the grant of authority for FTZ Subzone 8F at the BP Exploration & Oil Inc., refineries in Toledo and Lima, Ohio (Board Order 822, 61 FR 27048, 5/30/96), Subzone 8F—Site 2 (the Lima refinery site) is redesignated as Subzone 8G. The Lima refinery has been sold to Clark USA and will be operated separately. The authority for the site, now designated as Subzone 8G, would continue to be based on the FTZ Board's authorization in Board Order 822, including its special conditions and restrictions.

Dated: October 30, 1998.

Dennis Puccinelli,

Acting Executive Secretary.

Foreign-Trade Zones Board

[Docket 48-98]

Foreign-Trade Subzone 167B—Polaris Industries, Inc.; Expansion of Manufacturing Authority (Internal-Combustion Engines) Osceola, Wisconsin

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Polaris Industries, Inc. (Polaris), operator of FTZ Subzone 167B, at the Polaris plant, Osceola, Wisconsin, requesting an expansion of the scope of manufacturing authority to include a new end product (motorcycle engines) and additional internal-combustion engine manufacturing capacity under FTZ procedures within Subzone 167B. It was formally filed on November 3, 1998.

Subzone 167B was approved by the Board in 1997 with activity granted for the manufacture of small internal-combustion engines for snowmobiles, personal water craft, all-terrain vehicles (Board Order 940, 62 FR 66601, 12-19-97).

Polaris has installed new manufacturing capacity at the Osceola plant (84 employees) used to produce a new model motorcycle engine (V-twin, 1,507 cc) and now requests that its FTZ manufacturing authority be extended to include the increased motorcycle engine capacity. The company plans to produce up to 20,000 motorcycle engines annually, which would be shipped to Polaris' Spirit Lake, Iowa, plant to equip motorcycles assembled there. The new engine manufacturing activity will involve casting, machining, finishing, and assembly using domestic and foreign materials and components.

The motorcycle engine production will utilize foreign-sourced pistons and cylinders (2.6% duty rate) (representing 5% of the finished engines' ex-plant value) and all other components from domestic sources.

FTZ procedures would exempt Polaris from Customs duty payments on the foreign components used in export activity (less than 5% of shipments). On its domestic sales, the company would be able to elect the duty rate that applies to finished engines (duty free) for the foreign components noted above. The application indicates that the savings

from FTZ procedures help improve Polaris' international competitiveness.

The application has requested review under § 400.32(b)(1) of the FTZ Board regulations based on the previous Board approvals.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 24, 1998. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 8, 1999.)

A copy of the application will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: November 3, 1998.

Dennis Puccinelli,

Acting Executive Secretary.
