Lake Roosevelt National Recreation Area Draft General Management Plan/ Environmental Impact Statement, Washington

AGENCY: National Park Service, DOT.

ACTION: Notice of availability of Draft Environmental Impact Statement.

SUMMARY: The National Park Service announces the availability of a Draft General Management Plan/ Environmental Impact Statement (GMP/EIS) for Lake Roosevelt National Recreation Area (NRA), Washington. This notice also announces public meetings for the purpose of receiving comments on the draft document.

DATES: Comments on the draft GMP/EIS should be received no later than January 31, 1999. Public meetings will be held in Coulee Dam, WA, on November 30, 1998; Spokane, WA, on December 1; Kettle Falls, WA, on December 2; and Davenport, WA, on December 3. The specific locations and times of the meetings will be announced in the local media.

SUPPLEMENTARY INFORMATION: Guidance for managing a national park system unit such as Lake Roosevelt NRA is usually done through the development of a general management plan. The current General Management Plan for Lake Roosevelt NRA was approved in 1980. However, much has changed in the past 18 years, and a new management plan is needed to guide managers and decision-makers regarding the future management and use of the national recreation area.

The draft GMP/EIS presents and analyzes two alternatives for managing Lake Roosevelt NRA for the next 15 to

20 years. Alternative 1 proposes a new plan for managing the area that would emphasize maintenance of the existing visitor experience by increasing the capacity of existing facilities where feasible and redirecting other increases in visitation to less used areas. Alternative 1 would provide a framework for decision making regarding natural and cultural resources management, visitor use and development, NRA operations, and land use. Alternative 2, a "no action" alternative, proposes a continuation of management according to the 1980 General Management Plan. The draft alternatives were developed with input from federal, tribal, state, and local governments; concerned groups and individuals; and the general public. The Environmental Impact Statement presents a full discussion of the environmental impacts associated with implementing each alternative.

ADDRESSES: Comments on the draft GMP/EIS should be submitted to: Superintendent, National Park Service, Lake Roosevelt NRA, 1008 Crest Drive, Coulee Dam, WA 99116-1259. Copies of the draft GMP/EIS are available by request from the aforementioned address. The document will also be available for review at the Office of Public Affairs, National Park Service, Department of the Interior, 1849 C St., NW, Washington, DC 20240, and on the Internet at www.nps.gov.
