Number of Respondents: 436.

Estimated Time per Response: 4 hours.

Needs and Uses: 47 CFR 64.707, requires that operator service providers (OSPs) regularly publish and make available at no cost upon request from consumers written materials that describe any changes in operator services and choices available to consumers. A statute, 47 U.S.C. 226 (d)(4)(B), required adoption of this rule. This requirement was a response to a widespread failure of operator service providers to provide information necessary for informed consumer choice in the marketplace. OSPs have provided this information primarily to consumers in the form of a written report that will be regularly updated at the OSP's discretion. Consumers will use this information to increase their knowledge of the choices available to them in the operator service marketplace.
