**SUPPLEMENTARY INFORMATION:**

**Affected entities:** Entities potentially affected by this action are those which are authorized to manage the federal Hazardous waste program.

**Title:** Final Authorization for Hazardous Waste Management Programs, (OMB Control No. 2050-0041, ICR No. 969.) expiring March 31, 1999.

**Abstract:** In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable EPA to properly determine whether the State's program meets the requirements of section 3006 of RCRA.

A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying EPA of the proposed transfer, as required by section 271.23. Further, EPA may withdraw a State's authorized program under section 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as EPA determines to be necessary. The State shall inform EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with

section 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under section 3006(a). EPA will use the information submitted by the State in order to determine whether the State's program meets the statutory and regulatory requirements for authorization. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automatic electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 275 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** States with authorized State Programs.

*Estimated Number of Respondents:* 49.  
*Frequency of Response:* 12.  
*Estimated Total Annual Hour Burden:* 3037 hours.

### Protection of Stratospheric Ozone: Notice of Revocation of Technician Certification Programs

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of revocation.

**SUMMARY:** Through this action, EPA is announcing the revocation of Education Dynamics Institute (EDI) (located in Las Vegas, NV) to provide the technician certification exam in accordance with regulations promulgated at 40 CFR 82.161. EDI was issued a letter of revocation on August 19, 1998 that included an explanation of the basis for EPA's decision. This action also acknowledges the voluntary withdrawal of I.M./Thrifty Distribution, Inc. (located in Portland, OR); Advanced Technical Institute (located in Milpitas/Fremont, CA); and ADC, Limited (located in Albuquerque, NM) from the list of EPA-approved certification programs.

EDI has not complied with the recordkeeping and reporting requirements established for all technician certification programs pursuant to section 608 of the Clean Air Act Amendments. In accordance with those requirements, all approved technician certification programs must submit an activity report to EPA on a semi-annual basis. EPA sent EDI an information collection request issued pursuant to section 114(a) of the Clean Air Act, in which EPA requested that the program submit the required activity report. That information request letter indicated that failure to respond could result in revocation. Subsequent attempts by EPA to contact EDI were unsuccessful.

In accordance with 40 CFR 82.161(e), EPA revoked approval of EDI on August 19, 1998. All the above mentioned programs are no longer authorized to certify technicians or issue valid certification credentials. However,

technicians certified by these programs during the period that the programs operated as EPA-approved programs, will remain certified in accordance with 40 CFR 82.161(a).

**DATES:** EDI had its approval as an EPA-approved technician certification program revoked, effective August 19, 1998.
