BILLING CODE 6717-01-M

Agreement Concerning Gas Research Institute (GRI) Funding" which the Commission approved on April 29, 1998 in Docket No. RP97-149-003, et al. (83 FERC ¶61,093). Specifically, a voluntary contribution mechanism provision has been added to Section 28 of Kentucky West's General Terms and Conditions to allow customers to make voluntary contributions to GRI in such amounts and for such GRI projects as specified by the customers. Kentucky West's filing is consistent with the Stipulation and Agreement, in that the voluntary contribution mechanism is not a pipeline rate, rate provision, or term or condition of service.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
