## ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-51918; FRL-6044-8]

### Certain Chemicals; Premanufacture Notices

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical to notify EPA and comply with the statutory provisions pertaining to the manufacture or import of substances not on the TSCA Inventory. Section 5 of TSCA also requires EPA to publish receipt and status information in the **Federal Register** each month reporting premanufacture notices (PMN) and test marketing exemption (TME) application requests received, both pending and expired. The information in this document contains notices received from October 1, to October 30, 1998.

**ADDRESSES:** Written comments, identified by the document control number "[OPPTS-51918]" and the specific PMN number, if appropriate, should be sent to: Document Control Office (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Rm. ETG-099 Washington, DC 20460.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: [oppt.ncic@epamail.epa.gov](mailto:oppt.ncic@epamail.epa.gov). Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPPTS-51918]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed

online at many Federal Depository Libraries. Additional information on electronic submissions can be found under "SUPPLEMENTARY INFORMATION" of this document.

**FOR FURTHER INFORMATION CONTACT:**

Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-531, 401 M St., SW., Washington, DC, 20460, (202) 554-1404, TDD (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** Under the provisions of TSCA, EPA is required to publish notice of receipt and status reports of chemicals subject to section 5 reporting requirements. The notice requirements are provided in TSCA sections 5(d)(2) and 5(d)(3). Specifically, EPA is required to provide notice of receipt of PMNs and TME application requests received. EPA also is required to identify those chemical submissions for which data has been received, the uses or intended uses of such chemicals, and the nature of any test data which may have been developed. Lastly, EPA is required to provide periodic status reports of all chemical substances undergoing review and receipt of notices of commencement.

A record has been established for this notice under docket number "[OPPTS-51918]" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 12 noon to 3 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center (NCIC), Rm. NEM-B607, 401 M St., SW., Washington, DC 20460.

Electronic comments can be sent directly to EPA at: [oppt.ncic@epamail.epa.gov](mailto:oppt.ncic@epamail.epa.gov)

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in

"ADDRESSES" at the beginning of this document.

In the past, EPA has published individual notices reflecting the status of section 5 filings received, pending or expired, as well as notices reflecting receipt of notices of commencement. In an effort to become more responsive to the regulated community, the users of this information and the general public, to comply with the requirements of TSCA, to conserve EPA resources, and to streamline the process and make it more timely, EPA is consolidating these separate notices into one comprehensive notice that will be issued at regular intervals.

In this notice, EPA shall provide a consolidated report in the **Federal Register** reflecting the dates PMN requests were received, the projected notice end date, the manufacturer or importer identity, to the extent that such information is not claimed as confidential and chemical identity, either specific or generic depending on whether chemical identity has been claimed confidential. Additionally, in this same report, EPA shall provide a listing of receipt of new notices of commencement.

EPA believes the new format of the notice will be easier to understand by the interested public, and provides the information that is of greatest interest to the public users. Certain information provided in the earlier notices will not be provided under the new format. The status reports of substances under review, potential production volume, and summaries of health and safety data will not be provided in the new notices.

EPA is not providing production volume information in the consolidated notice since such information is generally claimed as confidential. For this reason, there is no substantive loss to the public in not publishing the data. Health and safety data are not summarized in the notice since it is recognized as impossible, given the format of this notice, as well as the previous style of notices, to provide meaningful information on the subject. In those submissions where health and safety data were received by the Agency, a footnote is included by the Manufacturer/Importer identity to indicate its existence. As stated below, interested persons may contact EPA directly to secure information on such studies.

For persons who are interested in data not included in this notice, access can be secured at EPA Headquarters in the NCIC at the address provided above. Additionally, interested parties may telephone the Document Control Office at (202) 260-1532, TDD (202) 554-0551,

for generic use information, health and safety data not claimed as confidential or status reports on section 5 filings.

Send all comments to the address listed above. All comments received

will be reviewed and appropriate amendments will be made as deemed necessary.

This notice will identify: (I) PMNs received; and (II) Notices of Commencement to manufacture/import.

**Proposed Administrative Penalty  
Assessment and Opportunity to  
Comment**

**AGENCY:** Environmental Protection  
Agency (EPA).

**ACTION:** Notice of Proposed Assessment  
of Clean Water Act Class II  
Administrative Penalty and opportunity  
to comment.

**SUMMARY:** EPA is providing notice of a  
proposed administrative penalty for  
alleged violations of the Clean Water  
Act. EPA is also providing notice of  
opportunity to comment on the  
proposed penalty.

EPA is authorized under section  
311(b)(6) of the Clean Water Act, 33  
U.S.C. 1321(b)(6), to assess a civil  
penalty after providing the person  
subject to the penalty notice of the  
proposed penalty and the opportunity  
for a hearing, and after providing  
interested persons public notice of the  
proposed penalty and a reasonable  
opportunity to comment on its issuance.  
Under section 311(b)(6), any owner,  
operator, or person in charge of a vessel,  
onshore facility, or offshore facility in  
violation of the regulations issued under  
section 311(j) of the Clean Water Act, 33  
U.S.C. 1321(j), ("Oil Pollution  
Prevention Regulations" 40 CFR part  
112) may be assessed a civil penalty of  
up to \$137,500 by EPA in a "Class II"  
administrative penalty proceeding.

Class II proceedings under section  
311(b)(6) of the Clean Water Act are  
conducted in accordance with the  
"Consolidated Rules of Practice  
Governing the Administrative  
Assessment of Civil Penalties and the  
Revocation and Suspension of Permits  
at 40 CFR part 22 ("part 22")."

Pursuant to section 311(b)(6)(C) of the  
Clean Water Act, 33 U.S.C.  
1321(b)(6)(C), EPA is providing notice of  
the following proposed Class II penalty  
proceeding initiated by the Superfund  
Division, U.S. EPA, Region 9, 75  
Hawthorne Street, San Francisco, CA  
94105:

In the Matter of Speedy's  
Convenience, Inc., Docket No. OPA-09-  
98-05, filed September 30, 1998;  
proposed penalty \$137,500; for  
violations of the Oil Pollution  
Prevention Regulations (40 CFR Part  
112) at the oil storage, processing and  
distribution facility located at Lupton,  
AZ.

The procedures by which the public  
may submit written comments on a  
proposed Class II penalty order or  
participate in a Class II penalty  
proceeding are set forth in part 22. The  
deadline for submitting public comment  
on a proposed Class II order is thirty  
days after issuance of public notice.

**FOR FURTHER INFORMATION CONTACT:**

Persons wishing to receive a copy of  
part 22, review the Complaint or other  
documents filed by the parties in this  
proceeding, comment upon the  
proposed penalty assessment, or  
participate in any hearing that may be  
held, should contact the Danielle Carr,  
Regional Hearing Clerk (RC-1), U.S.  
EPA, Region 9, 75 Hawthorne Street,  
San Francisco, CA 94105, (415) 744-  
1391. Documents filed as part of the  
public record in this proceeding are  
available for inspection during business  
hours at the office of the Regional  
Hearing Clerk.

In order to provide opportunity for  
public comment, EPA will not take final  
action in this proceeding prior to thirty  
days after issuance of this document.

Dated: September 30, 1998.
